Non-Intervention Farce To End At Last

Geneva Confesses
Failure Of Scheme
WITHDRAW NON-SPANISH
COMBATANTS
League Committee's Warning
To Powers

GENEVA, September 30.

If complete withdrawal of non-Spanish combatants from Spain cannot be obtained soon by diplomatic action started by certain powers, then the members of League will consider the question of ending the policy of non-intervention, declares the resolution in regard to the Spanish appeal agreed to by the Drafting Committee in the morning after further three hours' discussion of the resolution, which, the Assembly is expected to adopt unanimously to-morrow.

GO BY TO NON-INTERVENTION

It regrets that the non-intervention Committee has failed and recognises that the Foreign Army corps in Spain represent intervention in Spanish affairs.

DEMAND DROPPED

M. Del Vayo has dropped his demand for reference to "aggression" and arms for the Spanish Government.

ANTI-PIRACY
PACT SIGNED

PARIS, Sept. 30.
The Anti-Piracy Agreement has been signed.—Reuter

PEACE NOT YET
IN SIGHT

GENEVA, Sept. 30.
The attempt to find a solution to the Spanish problem by the drafting committee is still not successful.

Spain's modified demands, including that the aggressor should be defined and the arms traffic to the Spanish Government resumed, are still not acceptable to Britain and France although draft formula after draft formula have been submitted.

The discussion is being resumed to-morrow.—Reuter.

Italy And Germany Will
Definitely Resist, Says
Gayda

ROME, Sept. 30.
A tremendous welcome has been prepared for Signor Mussolini who will speak from the balcony of the Palazzo Venezia to-morrow evening.

Meanwhile Signor Gayda writing in the "Giornale D'Italia" says that Italy and Germany will offer definite resistance to the creation of a second Moscow in Madrid or Barcelona.

This is interpreted as suggesting that Italy will make reservations in accepting the Anglo-French invitation to discuss the settlement of the Spanish question.

If Signor Gayda's words represent official opinion, it appears that a Franco's victory is the first condition of any discussion.—Reuter

NO TROUBLE AT ADEN
R.A.F. Official Contradicts
Press Reports

LONDON, Sept. 30.
The Air Ministry announces that it has received from the Air Officer Commanding the R.A.F. Aden, a categorical denial of the press report that a British officer and four R.A.F. men were killed in action against the tribesmen in Aden.

He added that the situation in Aden and the surrounding territory is normal and the report that reinforcements are being sent to Aden is unfounded.—Reuter.

IL DUCE ON ROME-
BERLIN AXIS

Italo-German Friendship
Aims At Peace Of
Europe, He Says

ROME, Sept. 30.

Sgr. Mussolini returned to Rome this evening like a Roman Emperor celebrating a military triumph. The route from the station to Palazzo Venezia was lined by over a quarter million people. The streets were strewn thickly with laurel leaves as an emblem of victory. All shops and offices were closed from 1 p.m.

As the train arrived sirens sounded throughout the City, while hundreds of Church bells pealed welcome and wild cheering marked the whole drive until Sgr. Mussolini's car disappeared the gates of Palazzo Venezia.

ROME-BERLIN AXIS

Speaking from the balcony, Sgr. Mussolini said that the Italo-German friendship was a consecrated policy. The Rome-Berlin axis had entered the hearts of the two nations, and would remain there. The objectives of this friendship were close solidarity between two revolutions, re-birth of Europe and peace among peoples worthy of this name.

After the speech Sgr. Mussolini was ovated for nearly twenty minutes, during which he repeatedly appeared, saluting fifteen times.—Reuter.

TRADE PACT
EXTENDED

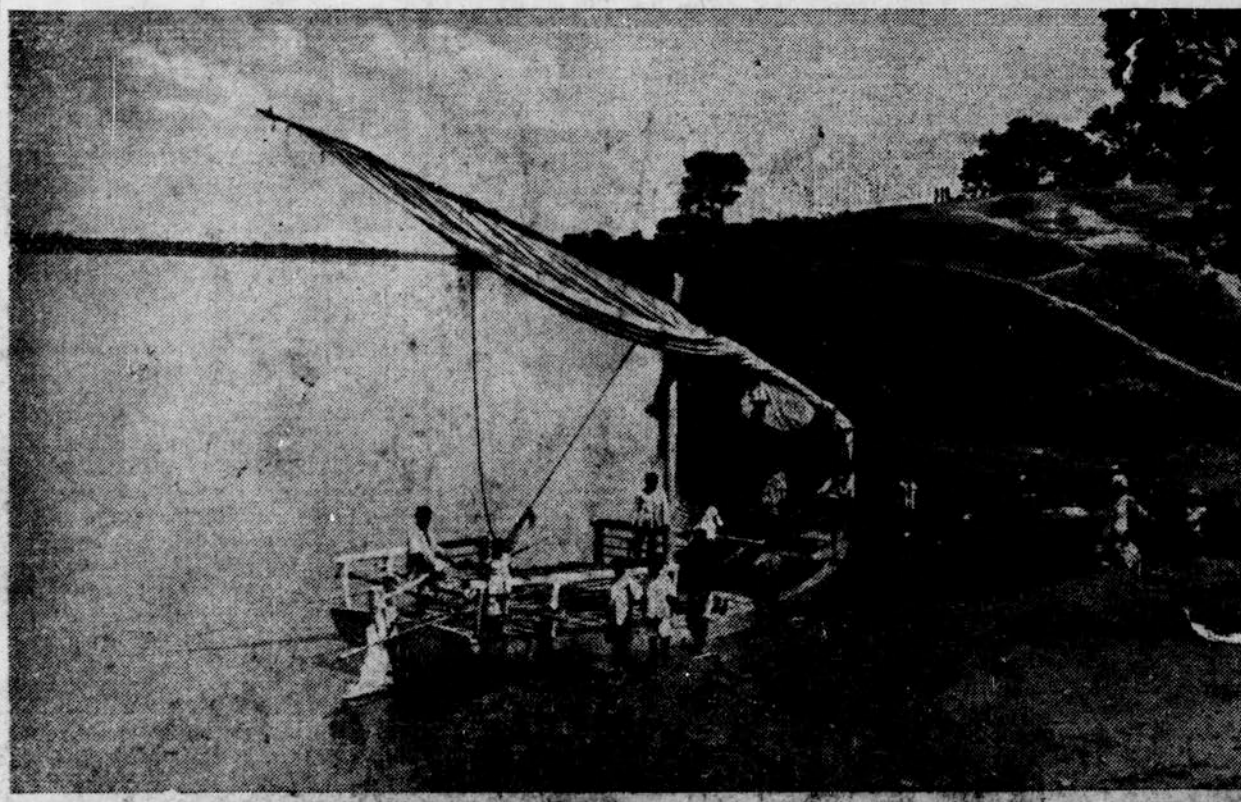

WELLINGTON, Sept. 30.
One year's extension of the New Zealand-Canadian trade agreement is announced.

It provides several concessions for New Zealand exports, including lamb.

EARLIER.

A new development in New Zealand-Canadian trade relations is foreseen in a statement by official circles that an important trade announcement will be made on Thursday.

It is thought that a definite stage of the trade negotiations with Australia will also be announced shortly.—Reuter.

B. P. C. C. PROGRAMME FOR

Mahatma's Birthday
Celebrations

The General Secretaries of the B.P.C.C. have issued the following programme for the 69th birth anniversary of Mahatma Gandhi: This year the 69th birth anniversary of Mahatma Gandhi falls

MAHATMA GANDHI whose 69th birthday is being celebrated all over the country.

Under the joint auspices of the B.P.C.C. and the Mandvi District Congress Committee there will be a public meeting at 9 p.m. (S. T.) at Vadgadi Azad Chowk.

TO-MORROW (Saturday). There will be another public meeting under the joint auspices of the B.P.C.C. and the Bhuleswar District Congress Committee at 9 p.m. (S. T.) at corner of Gaiwadi and Kalbadevi Road. Mr. Nagindas T. Master will preside.

Citizens are requested to buy as much Khadi as they can and encourage the Village Industries by buying their products.

ONLY WAY TO HONOUR

DALHOUSIE, Sept. 30.
"The only way to honour Mahatma Gandhi is to practise his creed," says Mr. Subhas Chandra Bose in a statement to the "United Press" in connection with Mahatma's 69th birthday anniversary. The following is the text of the statement:—

"I would especially request all Congress organisations in Bengal to intensify their campaign in favour of non-violence. Since Mahatma is the embodiment of non-violence and the ultimate success of his political mission depends entirely on our ability to practise his creed, no fitter occasion could be found for intensifying such a campaign. Fortunately for the country, the spirit of non-violence has now permeated even those sections who were once immune to it. Not only have the Andaman prisoners abjured violence, emphatically, but the recently released prisoners in the United Provinces as well.

"I have just received a letter

to-day (Friday) according to the Hindu Calendar and according to the Christian Calendar it falls to-morrow (Saturday).

The B.P.C.C. has arranged a programme for both these days and the citizens of Bombay are earnestly requested to take part in the programme and make it a great success.

HINDI ELOCUTION

Besides, the programme arranged for both these days, there will be one more programme on Sunday, the 10th of October, when there will be a Hindi Elocution Competition, which is an annual feature of the Gandhi Jayanti celebration. The details about this competition will be announced later.

TO-DAY (Friday)

Under the joint auspices of the B.P.C.C. and the Mandvi District Congress Committee there will be a public meeting at 9 p.m. (S. T.) at Vadgadi Azad Chowk.

TO-MORROW (Saturday). There will be another public meeting under the joint auspices of the B.P.C.C. and the Bhuleswar District Congress Committee at 9 p.m. (S. T.) at corner of Gaiwadi and Kalbadevi Road. Mr. Nagindas T. Master will preside.

Citizens are requested to buy as much Khadi as they can and encourage the Village Industries by buying their products.

PLAN FOR A. I.
SUGAR CONTROL

LUCKNOW, Sept. 30.
The joint Bihar and United Provinces Sugar Conference, which was opened yesterday, under the presidency of Pt. Govind Ballabh Pant, the Premier, continued its deliberations to-day.

The Hon. Dr. Syed Mahmud, Minister for Education and Development, Bihar, placed before the Conference a proposal for the establishment of an Inter-Provincial Sugar Control Board.

He has proposed:—
The Governments of Bihar and the United Provinces may constitute the Board under the Sugar Control Act, passed by the respective Legislatures, providing in it the scope for co-operation by such of other provinces and Indian States, which may care to join the scheme of sugar control at a later stage.

The Board may consist of representatives of each of the interests involved in the industry, for example, cane-growers, manufacturers and distributors, with a few experts nominated by the Governments concerned. The Governments concerned shall appoint a Permanent Secretary to the Board.

BOARD'S FUNCTIONS.

Among others, the Board may discharge the following functions:—
(A) To closely supervise the working of the Sugar Marketing Syndicate already established by Sugar manufacturers.

(B) To advise necessary changes in the constitution and the working of this Syndicate.

(C) To undertake measures for licensing sugar factories in the Provinces concerned and to serve as a permanent Standing Committee of the provinces concerned, to which problems of common interest may be referred.

FOR A. I. CONTROL.
The industry shall have to provide for meeting the cost of the proposed "Sugar Control". If the hope of other Provinces and States joining the scheme remains unfulfilled, in due course the Government of India may be moved to enact suitable legislation for the purpose.

With the approval of the Conference the Governments of Bihar and the United Provinces may go ahead to work out the details of the proposal and to give effect to it at the earliest they can.—A. P.

Jawahar's Call For
Jap. Goods Boycott
HOW INDIA CAN HELP
CHINESE PEOPLE
Tokio Plan To Meet Threat
Of Economic Blockade

ALLAHABAD September 30.

"Horror upon horror piles up in China and Japanese Imperialism tries to crush the spirit of the Chinese people by massacres of non-combatant men and women and even children.

"Flourishing cities are destroyed from air and terror reigns in that great land. We see something of what modern war is and we realise again the ruthlessness and inhumanity of Imperialism".

Thus observes Pandit Jawaharlal Nehru, Congress President, in a statement to the "United Press" calling upon his countrymen to avoid purchasing Japanese goods, taking care at the same time not to favour other foreign things.

NOT AN EASY TASK

The following is the statement:—"All over India mass demonstrations and great meetings have condemned this and sent our deep sympathy to our brothers and sisters in China. They are fighting most gallantly for their freedom and whatever suffering they may have to endure they will win through in the end. How can we help them? Boycott of Japanese goods has been suggested, not only in India but in other parts of the world."

"This suggestion is natural and justifiable and we must give it full consideration. Organisation of such a boycott in India is not easy as Japanese goods are already controlled by quota system and although large variety of them come in quantities are limited.

"But it is clear that, we must create psychological atmosphere for such boycott and each one of us who feels hurt and suffering and the horror of China under Japanese aggression, must avoid purchasing Japanese goods. But this must not be done in favour of other foreign goods. Mere sympathy is not enough. Let us do this much more at least, to help the people of China in the hour of their trial and distress".—United Press.

National Council Of Labour
Horried At Japanese
Atrocities

LONDON, Sept. 30.

A special meeting of the National Council of Labour representing both the industrial and political wings of the British socialist movement held last night called for an embargo on Japanese imports.

The Council has issued a declaration expressing its "deep horror at the barbarous and systematic massacre by Japanese aircraft and submarines of defenceless Chinese civilian population and declares that these shameful acts are a further aggravation of Japan's already grave offences against international law by her continuous policy of armed aggression against China and calls on the British Government to prohibit British citizens selling war material or lending money to Japan and to urge through the League of Nations that all members of the League should take similar action and also co-operate in the embargo on imports from Japan, at the same time taking into serious consideration the wider economic measures involved in bringing the Japanese aggression to an end."

The Council further called on the British Government to invite the Government of the United States to join in this action.—Reuter.

JAPANESE WAR

OFFICE DENIAL

TOKIO, Sept. 30.

The War Office denies as unfounded the statement attributed to a Japanese spokesman in Shanghai that 120,000 troops are being sent to Manchukuo.—Reuter.

TOKIO, Sept. 30.

Notes have been sent to the British and French Ambassadors on similar terms of the reply to America.—Reuter.

Mr. SYUD HOSSAIN

Leaves For Calcutta To-day

Mr. Syud Hossain will leave for Calcutta this evening by the Nagpur Mail.

TOKIO PLAN TO MEET,
ECONOMIC BOYCOTT

TOKIO, Sept. 30.
In order to consider the country's economic and financial resources, a tentative list of 300 commodities has been drafted for prohibition or curtailment, especially luxury articles, raw cotton and wool.

RETAILATION FEARS

It is feared that the countries affected may retaliate by restricting Japanese imports.

BARTEK FOR RAW MATERIALS
Consequently it is planned to pursue a policy of purchasing raw materials in India, Australia, Egypt and America as it is essential that Japanese exports to those countries, under the barter agreements, should be maintained and expanded.—Reuter.

SOVIET INTERVENTION
SUSPECTED

LONDON, Sept. 30.

It is learned from Tokyo that Japan is sending heavy reinforcements to Manchukuo, some sources assert due to Anti-Japanese rising in Manchukuo or to fears thereof, and other circles state due to fears of Soviet intervention in the Sino-Japanese conflict.

FOR BIG OFFENSIVE

SHANGHAI:—The Japanese continued to pound the Chinese defences nightlong, in preparation of a big offensive. The Chinese still claim that they have yielded no ground.

Meanwhile fleets of junk laden with stone are sent down river to strengthen the boom in Kiangsu which is the main protection against Japanese advance up the Yangtze.

The Chinese anticipate a concerted sea and air attack boom. China has banned the export of quick-silver two-thirds of which went to Japan.—Reuter.

RESTORE the NATURAL action WITH THIS SAFE and pleasant LAXATIVE

Constipation works against Nature—clogging your body with unhealthy poisons, dulling your mind, robbing you of youthful energy! Wampoles Magnolax banishes constipation—but without harsh purgatives or harmful drugs. Its gentle lubricating action gradually restores the body's functions to normal—rids your intestines of harmful acids and assures regular, healthy action. Wampoles Magnolax is absolutely safe and pleasant to taste. Equally suitable for men, women and children. Ask for it by name at leading stores, chemists and bazaars.

"I feel I must write and tell you what beneficial results I have derived from Kalzana. My trouble was debility and anemia. My whole system seemed to wake up with new life and vitality. My complexion clear and bright. I cannot speak too highly of the value of Kalzana,"

writes Miss K.E. E.

Attractive YOUTH depends upon GOOD HEALTH

A woman's health and happiness are dependent, far too often, on periodical weakness and pains. And yet, these are entirely natural events, which need not be the cause of so many complaints.

Conquer your periodical weakness by taking Kalzana—the mineral food for better health. It will strengthen your blood cells, increase your power of resistance, diminish pain and discomfort and give you new strength and stamina.

Buy Kalzana at your nearest chemist or Bazar to-day and you will soon be convinced that Kalzana really does give the help you need. It will make you enjoy work and pleasure to the full again.

Kalzana

THE MINERAL FOOD FOR BETTER HEALTH
Obtainable of all Chemists and Bazaars.
NOT TOUCHED BY HAND.

PURE MILK SUPPLY FOR CITY

Co-operative Society Undertakes To Provide 10,000 Lbs. Daily

Municipal Commissioner Recommends Subsidy
For First Three Years

It is hoped that Bombay will very shortly have pure milk supply from a Union which will run on co-operative lines with a capital of Rs. 2 lakhs.

The Municipal Commissioner has gone into the scheme and it will come before the Municipal Corporation some time in October. The Municipal Commissioner in a letter to the Municipal Corporation states:

On the 4th October 1934 the Corporation passed a resolution authorising me to invite offers for the supply of milk to the City from the suburbs with or without payment of subsidy from the Corporation that offers were invited by public advertisement, in response to which replies were received from the following:

- (1) The Proprietor, Kanara Farms.
- (2) Mr. Ambalal J. Patel.
- (3) The Blizzard Milk Transport and Supply Co.

None of the schemes submitted by them, however, made any headway.

Since then several schemes from different persons and firms have been received, the principal among them being from Mr. B. G. Athalye and Mr. C. C. Shah; but these also did not make any progress for one reason or another.

Co-operative Milk Supply Union

Subsequently, the Bombay Co-operative Milk Supply Union, which was started by several responsible and representative men in the co-operative movement with the object of importing milk into the City, submitted a scheme and applied for the grant of the subsidy offered by the Corporation. The Union has been registered under the Co-operative Societies' Act and is therefore partially under the supervision of Government. From inquiries made I am satisfied that the financial standing of the Union is satisfactory.

Organisation Of Union

The organisation proposed by the Union comprises the Co-operative Milk Supply Union and the Co-operative Milk Producers' Society. The Union is to be started with an initial capital of 2 lakhs of rupees and is to finance the Producers' Society for the purchase of cattle and will provide stables for housing them. The Union has agreed that the milk will be produced under qualified and efficient supervision satisfying all the tests imposed by the

Municipality. Milk produced by the Co-operative Milk Producers Society is to be sold to the Co-operative Milk Supply Union for distribution in Bombay. The Union wish to locate their stables on a site 4 miles north of Kandivli and expect to begin with a supply of 10,000 lbs. of milk per day according to our requirements.

I propose that the scheme put forward by the Union may be accepted on the terms and conditions mentioned below:—

(1) The stables are to be constructed by the Union according to Municipal requirements.

(2) The Union guarantees a daily supply of at least 10,000 lbs. from the stables.

(3) A qualified Veterinary Officer is to be appointed by the Union with the approval of the Municipal Commissioner to supervise the management of the stables and the process of milking, etc.

(4) The milk will be pasteurised before distribution. Unpasteurised milk, if any, will not be taken into account in calculating the quantity of 10,000 lbs. of milk entitling the Union to payment of the subsidy.

(5) A subsidy of Rs. 57,000 will be granted to the Union in three annual instalments of Rs. 23,000, Rs. 20,000 and Rs. 17,000. The subsidy for each year will be paid at the end of the year after it is certified by the Health Officer that the Union has continuously imported 10,000 lbs. of pasteurised milk daily during the year.

(6) In the event of any interruption of the supply, or should the daily quota fall below 10,000 lbs. for any period, the subsidy will be proportionately reduced: provided that no portion of the subsidy will be paid if the daily supply of 10,000 lbs. is not maintained for at least 340 days in the year.

(7) The Municipality will not be bound to purchase any milk from the Union nor will it accept any responsibility for the milk remaining unsold.

"NEFARIOUS TRAPPING OF INNOCENT PEOPLE"

"Defendant's wicked and nefarious trapping of innocent and mostly poor, lacking equally in money and brains—we cannot help stating it—is to say the least criminal, but this is not the Court to take any notice of this aspect of Defendant's activities."

In these words Mr. Indranarayan sitting with Judge, Mr. Champaikar, C. J. in Full Court dismissed a rule obtained by one Chintaman Shivram Bal against the Victoria Competition a firm.

Plaintiff sued to recover Rs. 2,000 as the prize money of a certain competition offered by the Defendant on terms and conditions published in the issue of the "Nava Kal" of 26-7-36 and which Plaintiff alleged to have been one of the many solutions of the said puzzle sent by him in compliance with the published terms and conditions being correct to a figure as disclosed by the Defendant's own advertisement in a subsequent issue of the "Navakal".

The trial Judge Mr. Y. N. Nadkarni's decision dismissing the claim was upheld by the Full Court.

In upholding the Judgment of the trial court in full Court stated that, even if the contract alleged is not illegal, the Plaintiff must conform to the offer in the advertisement. The Judgment added "We are distinctly of the opinion that the advertisement is capable of only one interpretation and that is that. Each entry sent must contain the solution of each of the two squares together and be accompanied by the indivisible prescribed fee of Re. 1 per entry. Plaintiff had not complied with the condition and the result must be that the suit must fail."

The rule was therefore discharged. Mr. S. M. Varde, Advocate with Mr. Gujjar appeared for Plaintiff and Mr. D. S. Deodhar appeared for the Defendant.

Shankarrao Deo, President of the Maharashtra Provincial Congress Committee and Mr. Lavate Shastri, Secretary, it is understood, will leave for Wardha to discuss with Mahatma Gandhi the prohibition scheme.—A. P.

BENARES STUDENTS' CONFERENCE

Want Representation On
University Senate

BENARES, Sept. 27. The Benares Students' Conference which was held here under the presidency of Dr. K. M. Ashraf, Head of the Foreign and Political Department, A. I. C. C., concluded to-day after passing a series of resolutions.

The first resolution expressed solidarity with the brave anti-imperialist fighters of China, who are carrying on a resolute struggle against the onslaught of Japanese imperialists, and condemned in unequivocal terms the brutal onslaught of Fascism against the independence of the Chinese people.

The second one regretted the recent statement of Pandit Jawaharlal Nehru about the Red Flag, that "it will be smashed if it is pitched against the National Flag," as it is, in the opinion of the conference, likely to create unnecessary misunderstandings in the anti-imperialist ranks.

The third resolution congratulated the people of Spain for their heroic struggle for the defence of democracy, in which millions of Spanish men and women have been brutally sacrificed.

The conference strongly condemned the action of the Allahabad University authorities in expelling and refusing admission to students of progressive social outlook in the University, and the "highhandedness" of the managing committee of the Khalsa College, Amritsar, in dismissing its nationalist Professors.

Other resolutions requested Government to abolish communal and caste representations in the Services, protested against the prosecution of two students, Ramesh Chandra Sinha and J. P. Bhattacharya, who have a record of service in the cause of their motherland and student community, and demanded adequate representation of students on the University Senate and the Educational Board.—United Press.

Our Baroda Letter

Local Option Committee To
Consider Prohibition

(From Our Correspondent.)

BARODA, Sept. 27. A meeting of the local Option Committee will be held on October 2nd to consider the question of prohibition of liquor.

Cholera has started in three villages of Vyara taluka while it has subsided in Mangrol.

Mr. Nandlal Kavishwar has been elected as the Chairman of Amreli Municipality.

Mr. Moses has been appointed as Director of Fisheries of Baroda State.

Dr. Mathuradas, eye-specialist of Mogha, donated Rs. 1,500 to Aryakanyamah-Vidyalyaya.

Strike in Sayaji Mill and the Baroda Spinning Mill continues.

Their Highnesses the Maharaja and Maharani Gaekwar of Baroda are expected here in the last week of November.

People of Navsari complain that motors are running on roads at high speeds of more than 30 miles. There ought to be a check on it.

LABOUR LEADER DEAD

BOMBAY, Thursday.

Mr. B. D. Joshi, a member of the Bombay Girni Kamgar Union died at 8 p. m. on Wednesday.

He was suffering for the past three years from this disease. Mr. Joshi was one of those brave soldiers of freedom who had staked their everything in the C. D. movement of 1930 and 1932. He had been to gaol twice. While he was in Yerawada Gaol, he contracted this horrible disease.

On his return from gaol Mr. Joshi devoted his services to the working class movement. He was the joint Secretary of the Young Workers' League. Despite his broken health he took an enthusiastic part in the Great Bombay Textile General Strike of 1937 and was afterwards elected as a member of the Managing Committee of the Bombay G. K. U. In his death the workers of Bombay have lost one of their devoted comrades.

FIND OF BUDDHIST RELIC IN FRONTIER

SIMLA, (By Mail.)

A Press Note states:—

The discovery of a relic casket with inscriptions in the Kharoshthi script of outstanding importance is reported by the Director-General of Archaeology. The provenance of the inscription is reported to be 'Shinkot' in Bajaur territory outside North West Frontier Province, where some tribal people while digging the foundations of a new fort chanced upon a steatite casket said to encase a silver casket, which in turn contained a gold reliquary inlaid with precious stone and some ashes with which some contemporary coins must undoubtedly have been deposited. The more precious parts of the find as also the relics are no longer traceable, but the stone casket with parts of the broken lid, both of which had inscriptions inscribed on them were recovered through the efforts of Mian Afzal Shah son of Khan Bahadur Mian Raheem Shah.

C.I.E. of Ziarat Kaka Sahib in the Peshawar District. It records the enshrinement of the relics of Buddha by one Vijayamitra (who may have been a petty dignitary) in the time of the Maharaja Menander, the well-known Greek King of Punjab and Afghanistan, the first of the alien rulers to adopt Buddhism, whose questions are recorded in the Pali Buddhist scriptures. The date is given as the 25th day of the month of Vaisakha in the fifth year of the King, who must have lived about 150 B. C. The casket has been presented to the Archaeological Section, Indian Museum, Calcutta.

Mr. N. G. Majumdar, Superintendent, Archaeological Section, will publish the inscription in the Epigraphia Indica.

Latest Gallops At Poona

King Of France, Vandyke And Tohalla Work Well

(From Our Correspondent.)

Rain through the week having rendered the going heavy, work has been confined to the Monsoon Track only. The following Gallops were noted.

HIMAT (Selby) travelled a mile at a strong pace. Fit and well.

HAREM (Brace) was superior to MANIFOLD (O'Neale) in a brisk mile run. Latter is an improving sort and one to note.

KING OF FRANCE (Brace) had IRISH BROADCAST (Evans) beaten in a sharp mile gallop. He has never been better.

QUICKSILVER (Evans) showed too much speed for JILL'S FIRST (Rylands) in a dash over the six. Should be thereabouts on Saturday.

VANDYKE (Burn) shaped well in the company of CORCY (Black) in a run over the mile. Former is a nice type of Indian bred and must be seen to advantage again.

PAPER BOY (Brace) had his head in front of DANGEROUS II (O'Neale) at the end of a six furlongs dash. He retains his early season form.

FILLE OF YORK (Meherji) spurred four furlongs in fine style. SUBAH (Marrable) and NUR JEHAN (Brace) were exercised

over nine furlongs when the former impressed.

AJWAD covered a fast mile in attractive fashion. Fit and well.

DILAWAR (Rylands) moved very fast over a mile. A great galloper in private.

FUNNY FACE (H. McQuaue) was sharpened over three furlongs when he showed up well.

KARAM ALLAH (R. Boy) was always going too well for TAJ NIZAM (R. Boy) in a mile run.

RESOLVE (Marrable) gave a speedy display for six furlongs. Can be backed again.

AL GHAZI (Rosen) finished strongly over seven furlongs. Fit.

NO LIMIT (K. Hassan) and WALK OVER (Brace) were worked over a mile when they gave satisfaction.

ARTIGHRIL (K. Hassan) was splendidly speedy over six furlongs. Must run well again.

TOHALLA (Evans) accounted for SADRAM NAFI (R. Boy) in a sharp mile gallop. Greatly improved.

SIR JAMAL (K. Hassan) pleased in a dash over the six.

AL MUNDIR (Brace) was not disgraced when sent with AL SAFFAH (Evans) over a fast five. Keep an eye on this one.

HAKIM PASHA (Jones) was good in a mile gallop.

TURKISH PRINCE gave a fair display when worked over a mile. Finds his form slowly.

YANOS (R. Boy) finished smartly in a run over seven furlongs.

TAJ AL NUSSER (R. Boy) strode out freely and well for nine furlongs.

Note: CONSOLS, HARRY JOHN-SON, VIGILANT and GOLD CROWN.

"STRANGLER" LEWIS IN BOMBAY

Awaiting Offers From
Indian Pahlwans For
Title Bout

"Strangler" Lewis, America's foremost wrestler and his manager Ted Thye, arrived in Bombay by s.s. "Strathaird" on September 23, from Australia.

Ted Thye has sent the following message by telegram to the "Civil and Military Gazette", Lahore from Majestic Hotel, Bombay, in reply to Hamida's letters I and II, which appeared in the "Sentinel" of Tuesday, September 28, accepting both Lewis and Dr. Hall's challenges:—

"Your paper publishes the report that Hamida will accept Lewis's challenge. I will sign for a match with Hamida and also with Gama and Imam Baksh and am awaiting an offer of such matches."

"We are prepared to wrestle the three men mentioned by me in October."

"We paid our own expenses to come to India, but have secured no offer for matches. I am awaiting an offer."

BOMBAY COLLEGES COMBINED TEAM

To Meet Poona Colleges On
Oct. 11 And 12

Following combined Team of the Colleges in Bombay has been selected to play the combined Team of the Poona Colleges at Poona on the 11th and 12th October, 1937:—

Grey Prince 9-3, Sir Jamal 9-3, Mulzoom 9-3, Shakespeare 8-12.

RECOVERED FROM ULCERATED STOMACH

Mrs. Norman is a happy woman these days. She might well be, after all she has been through.

"I feel I must write to you," says Mrs. Norman, "about the way I have recovered from ulcerated stomach and gastric trouble."

"For years I have suffered, tried many things, but nothing relieved the pain. I had a bad attack of gastritis last October, and was very ill. I got my husband to bring me a bottle of Maclean Brand Stomach Powder to try; after two doses I got relief. Since then I have had a dose before retiring each night, or whenever I feel discomfort. Immediately I feel better. I recommend your powder to all sufferers."

Every form of stomach trouble soon yields to the soothing, healing influence of Maclean Brand Stomach Powder. Case after case, many of them much worse than your own stomach trouble, have been cured by the powder with the signature ALEX. C. MACLEAN on the carton and bottle.

Its reputation is beyond all comparison with any other powder. Maclean Brand is never sold loose—only in bottles in cartons (powder or tablets). If you have any difficulty in obtaining it from your local chemist or store, write to J. L. Morrison, Son & Sons, (India), Ltd., Standard Bldg., Hornby Road, Bombay.

Change ALL health

to GOOD health

If your life is made miserable by suffering—if you can't sleep at night—if you get pains after eating or can't digest your food without discomfort—if your day's work is ruined by headaches, 'nerviness', pains or depression, then YOU, too, need Yeast-Vite.

Take two Tablets NOW! See how in only a few minutes you begin to experience their wonderful relief! Notice how more buoyant, more energetic and refreshed you feel! Feel the new life and new energy.

No Cure—No Pay

Simply obtain a 20 tablet bottle of Irving's YEAST-VITE Tablets from any Stores. Take as directed, and if you are not thoroughly satisfied, post the empty carton to our Agent (see below) including dealer's receipt and your money will be refunded in full.

From All Retailers & Stores in Bottles of 20 Tablets, 50 Tablets and 100 Tablets.

WARNING

We cannot too strongly warn purchasers in India not to be misled by any so-called "Just-as-good" imitations which are worthless and fraudulent. To ensure obtaining the only genuine "YEAST-VITE", see that you get the new-shaped bottle as illustrated, with the name "YEAST-VITE" stamped in the glass.

NOTE

LOOK FOR THIS SHAPED BOTTLE—AND ACCEPT NO OTHER

The Lightning Pick-me-up

Agents for Bombay: CAMA NORTON & Co., 23, Medows Street, Fort, Bombay.

WE DIG OUR GRAVES WITH OUR TEETH

The very food you eat either develops or destroys you. What you eat, how much you eat, when and how, is recording every day, every night whether you are climbing up or digging down. Millions of people are digging down, deeper and deeper, into their graves.

Why? Because the things we eat, the things we drink are continually creating acid poisons in the system. When this acid becomes excessive, we get stomach distresses, dangerous acid indigestion, sour stomach, wind, colds, headaches, neuralgia or rheumatic pains.

It is dangerous to neglect this situation. What you need at once is to ease the pain and neutralize this excess acidity.

Alka-Seltzer

is the only remedy of its kind that does exactly these two things—two results accomplished at one and the same time.

Dissolve one or two tablets of ALKA-SELTZER in a glass of water and drink it. Your pain will ease and your relief from distress will be amazingly quick and refreshing. Then in case you make the error of over-eating or over-drinking, ALKA-SELTZER will always come to your rescue. Try it today. It is guaranteed to give complete satisfaction.

SUPREMELY GRATEFUL:

"I have used ALKA-SELTZER for Colds, Overloaded Stomach, Wind and Indigestion. I am strong for ALKA-SELTZER and believe that if more people would use it, the country would be healthier, and we would all find it a better place to live in. I cannot express in words what ALKA-SELTZER has done for me and my wife."

Alka-Seltzer is not a laxative. You can take it as often as you like, without inconvenience.

Get all Chemists in two convenient sizes. Try it today.

It is unobtainable at your Chemists send Rs. 2/- for large size, or Re. 1/- for small size with your chemist's name to Dodge & Seymour Ltd., 3 Wiltet Road, Bombay.

Gonorrhoea Cured

OLD or NEW—Cured Guaranteedly. Medicine charges on cure. Correspondence not invited—visit personally. Time:—9 to 12 a.m. & 5 p.m. to 9 p.m. SUNDAY: 9 a.m. to 12 a.m. only.

SANYASI DAVAKHANA (Regd.), Sandhurst Road, Opp. Central Bank, Majestic Building, BOMBAY 4

rendered him unconscious and not satisfied with this act of vengeance, the assailants threw the unconscious Inspector in a tank. freed the three arrested persons and made good their escape. Mr. Cama it appeared, had no revolver.

He was not granted a licence for one when he applied to the Collector of Thana.

Thana District Police, on being informed, took out the body of the deceased from the tank in an unconscious state and removed him to the Baseline Hospital. Later he was taken to the

Charak Clinic, where he died. Laxman Wasudev Joshi, an Excise policeman, gave evidence describing the details.

Another witness said that the deceased cried out to him, "Mohammed, I am dying, you run away."

The jury returned the following verdict:—Death was caused by homicidal stab wounds inflicted by means of a scythe by the suspect Nana Walu in the village of Narangl, near Virar, on the night of the 12th September. He ought to be prosecuted on a charge of murder.

LONG LIFE GANDHI

Mr. Purshottam Kanji Secretary, A. I. S. A. Bombay Branch writes—

The best method of focusing public opinion on the intensity of any particular problem is by organising a particular week, for the spreading of a certain propaganda.

We have thus Baby Weeks, Health Weeks, Prohibition Weeks etc.

That does not, however, mean that the observance of those rules is restricted to that particular period alone.

It is only meant to emphasise a particular view point.

To-day is the birth day of Gandhiji. Even if you are a habitual wearer of Khaddar, you must make some purchase of Khadi to-day.

HIND MAHILA SAMAJ GANDHI JAYANTI

Distribution of sweets to Harijan Colony Annesley Road, opposite Lamington Road, under the Presidency of Shrimati Godubai Gokhale on Friday at 7 p.m.

BHAGINI SAMAJ AND GANDHI JAYANTI

The Bhagini Samaj will celebrate the Gandhiji Jayanti by holding an Exhibition of Khadi and Cottage Industries at the Bhagini Samaj Malvi Bal Mandir Mantri Building, Shriyut Purshottam Kanji Karsandas will open the Exhibition to-day (Friday) at 6 p.m. The Exhibition will be kept open on Saturday and Sunday from 4 to 8 p.m.

VIDYARTHI KHADI-DHARI MAN-DAL

Under the auspices of the above union, there shall be a sale of Khadi-Hundi on Sunday, the 3rd October, the last of the "Gandhi Jayanti Week". Those who are desirous of taking part, should come to the "Union's" office (Tanker Villa, Gollala Tank Road).

ATTRACTIVE PROGRAMME IN BHULESHWAR

1st October being the birthday of Mahatma Gandhi according to the Hindu calendar a programme of an illumination of 69 'Kodias' arranged in letters 69 shall be lighted by Sjt. Jannalal Rajaj at 7 p.m. at the corner of Princess Street opposite Popatwadi.

CITY FATHERS' BOUND IN 'A' WARD

If there will be no heavy rains the Municipal Commissioner will meet the elected Members of the "A" Ward to-morrow (Saturday), at 7 a.m. (B.T.) at the following place and go round with them in the Ward. Place of meeting—Near Old Colaba Railway Station.

VANITA SAMAJ, DADAR

PROF. V. G. RAO'S VISIT TO DE-PRESSED CLASSES EDUCATION LEAGUE

Prof. V. G. Rao visited the Night School conducted at Chaudanwadi by the Depressed Classes Education League. Mr. M. N. Talpade welcomed him. His service as the Municipal Corporation as an Educationist and as a Philanthropic citizen was well-known said Mr. Talpade. Prof. Rao in his speech expressed satisfaction at the cleanliness shown by the students of the Depressed Classes. He added if the students advanced in the matter of cleanliness and education, they will no more remain depressed but will be the advanced class. He appealed to all the parents to send more children to school and derive all the benefit they could.

Mr. Gangaram G. Bhakude thanked all present.

Government Of India Secretaries

SIMLA, Sept. 30.

The "Associated Press" understands that Mr. A. G. Clow, at present Secretary for Industries and Mr. H. Dow, Secretary for Commerce, will be the two secretaries in the new department of Commerce, Industries and Labour, which will come into being simultaneously with the Government of

LOCAL BODIES REFORM

Circular To Collectors And Commissioners

A Circular Memorandum issued by the Government of Bombay to the Collectors and Commissioners of Divisions states:—

"Government think that the time has come when the whole question of the administration of the various local bodies in this Presidency should be brought under review with a view to ascertain whether it is not possible to make certain radical changes in the constitution of these bodies and their system of administration in order to remove the chief defects which hamper the progress of local self-government.

Before Government resort to legislation for this purpose they wish to consider the views and recommendations of officials and non-officials on the whole subject generally and particularly on the following points:—

(1) Whether it is desirable to abolish the system of making nominations on local bodies, (2) Whether the system of joint electorates with reserved seats for minorities should be introduced in place of separate elections, (3) Whether the franchise should be widened and, if so, to what extent, (4) What steps should be taken to improve the finances of local bodies, (5) Whether there should be a regular cadre of chief officers and other important officers of local bodies such as health officers, engineers etc., (6) (a) What improvements can be effected in the administration of village panchayats, especially with regard to their judicial powers and duties, (b) Whether election to panchayats should be by ballot only, (c) Whether special officers should be appointed under section 95 (3) of the Village Panchayats Act, 1933, to supervise and control the system of existing panchayats and to establish and organise new panchayats in as many villages as possible.

REPORT BEFORE OCTOBER 15.

The Commissioners are requested to obtain the views of the Collectors, President of the Municipalities and District Local Boards and of prominent leaders of public opinion (who are conversant with these problems) including those of the minority communities in their respective charges on the questions raised above and after collating these views in the form of a statement, to submit them to Government with their own comments and recommendations. The reports of the Commissioners should reach Government not later than the 15th October 1937.

STOCK EXCHANGE TO BE CLOSED ON SATURDAY

The Stock Exchange will be closed on Saturday the 2nd October 1937 owing to Mahatma Gandhi Jayanti.

India Secretariat reopening in New Delhi.

It has already been reported that Mr. S. N. Roy will be the Secretary of the newly created Department of Communications—A.P.

TALK OF THE SUBURBS

(By A SUBURBAN MAN).

The monsoon is now pouring its last few showers and the hot season has already set on us, as could be judged by the number of people shifting to our popular suburban sea-side resorts.

Most of the suburban schools have closed down for their October vacation.

Further down the suburbs vast acres of paddy fields present a golden hue a sight that is a treat to the human eye. The paddy crop is nearly ready and in a few days' time will be reaped and thrashed before it is sent to the granary.

The blessing of the paddy known as 'agars' is a grand feast which is celebrated by the Catholic farmers, each Church having its own celebration, after which the reaping is done.

This year, I understand, there is a quite good paddy crop, and the farmers are expected to reap a harvest that was not seen by them for many years gone by.

The monsoon in its departure has left many memories behind both good and bad.

One such memory was Wednesday's thunderbolt, which was gossiped by all the suburbanites, especially the women had

quite an interesting subject to gossip about.

This was a thunderbolt that roared like a hundred cannons shot at the same time, shaking the whole of our suburban area... oh! was it not frightful!—houses shook and I thought it was the beginning of an earthquake.

DANDA GREEN

Talking about the departure of the monsoon brings back to memory of our well-known suburban cricket pitch "Danda Green" where five cricket fixtures are played during the week-end.

This green I understand, is municipal land and is meant as a public play-ground for the surrounding villages. But now the number of teams of these villages have increased and every Sunday a hot dispute is said to take place as to which team should play on the pitches.

The nature of these disputes at times threatens the peace of the cricketers and cricket fans and some means must be adopted to put a stop to this.

The municipality might see to this or get the teams of the surrounding places to form an association when the pitches could be systematically fixed for each team to play on.

BOMBAY GOVT GAZETTE

Civil Appointments

The Reverend R. P. S. Waddy, officiating Senior Presidency Chaplain, Bombay, is granted leave for five months.

The Reverend O. G. Lewis, now serving as Chaplain, Steamer Point, Aden, is granted six months' leave.

Mr. J. M. Sladen, has been allowed by the High Commissioner for India an extension of leave on average pay for seven days.

Mr. A. C. Amin, Advocate (O.S.), to officiate as Judge, Small Causes Court, Bombay, vice Mr. S. E. Kurwa, Bar-at-Law, succeeded on leave.

Mr. I. K. Master, Bar-at-Law, to be a Second Class, Second Grade, Subordinate Judge on probation, with effect from the 19th October 1937.

Mr. G. C. Ryan, Assistant Superintendent of Police, Sholapur, is granted leave on half average pay for seven months and fifteen days with effect from the 22nd September 1937.

Mr. C. A. Shillidy, Inspector-General of Police, Bombay, Presidency, is granted leave on average pay for four months followed by leave on half average pay for two months with effect from the 4th December 1937.

Mr. M. M. Hyamannavar, Resident Magistrate, First Class at Hubli in the Dharwar District, to perform the functions of a Magistrate.

Mr. R. S. Vyas, a Magistrate, First Class in Thana, is invested under section 37 of the Code of Criminal Procedure, 1898, with powers, to require security for good behaviour and power to try summarily.

Mr. P. K. Kute, Extra Joint Subordinate Judge, Hukeri, passed the Gujarat Higher Standard Examination held at Bombay on 13th September 1937.

Gandhi Jayanti & Khadi

The Secretary, Girgaon Khadi Shop writes—

To-day is the auspicious day of Rantia-Baras-the birthday of that great Saint according to Hindu date. Reverend Mahatma Gandhiji enters his 69th birthday to-day Bhadava Vadi 12th S. Y. 1937.

On this auspicious day, let us obtain blessings of those helpless spinning women, by purchasing pure khadi, so dearest to Mahatma, thereby giving livelihood to those poor cottage residing spinners of India! 'Khadi Hundi' can be exchanged at the Girgaon Khadi Shop.

To-day is the opportunity to buy Khadi at cheaper rates from lots put for sale at extremely reduced rates on this occasion of 69th Gandhi Jayanti. It is the duty of the public to encourage Khadi by purchasing same in sufficient quantity at this juncture, thereby helping the cause of Daridra-Narayan and Harijan brothers.

Now, how will the public celebrate the remaining 2 days of Gandhi-Saptah?

(1) By purchasing Khadi Hundi-issued by the A. I. S. A.

(2) By extending the use of Khadi to their every household requirement.

(3) By recommending their circle friends to buy Khadi.

The best way to celebrate Gandhi Jayanti is to do our utmost to popularise Khadi in every respect. We hope the general public will share their love towards giving livelihood to the starving millions of India by purchasing their complete requirements in Khadi only during this Gandhi Jayanti

GOVERNMENT OF BOMBAY

The Government of Bombay will re-assemble at Bombay on Friday, November 5.

Suffered Terrible CATARRH

KARSOTE brought INSTANT RELIEF

GONE IN 3 DAYS

Persistent catarrh poisons the system. It makes you feel ill, gives you headaches, and sometimes leads to even more serious complaints. The surest and speediest way to get rid of it is to use Karsote. Read this case—catarrh of long standing cured in three days:—

"I would like you to know that I have derived great relief from catarrh after using Karsote. For the past few months I have suffered terribly with headaches and a pain in my eyes which made me feel depressed. I purchased a bottle of Karsote, sprinkled ten drops on my handkerchief as directed, and on the pillow each night, and after the third day I was free from catarrh. Thanks to Karsote I feel a new man. I trust that my sincere appreciation of Karsote Inhalant will lead to many other sufferers from catarrh being cured."—H.W.

No matter how acute, no matter how chronic—Karsote will bring you the same swift relief from catarrh. You just put a few drops of Karsote on to a handkerchief and inhale the pleasant vapour. In a few minutes the head clears, nasal congestion is relieved. Very quickly your catarrh disappears altogether.

KARSOTE INHALANT

Obtainable from all Chemists, Stores and Bazaars.

Wholesale Stockists:

Bombay: Cama, Norton & Co.

Karachi: Nusservanji & Co.

The Bombay Chronicle

BOMBAY, FRIDAY, OCTOBER 1, 1937

NATIONAL HEALTH

The annual report of the Public Health Commissioner with the Government of India is one of the most important all-India official documents as it deals with a question which is literally one of life and death. It is packed full with facts and figures about health conditions in the country and as such is most serviceable to all those interested in national health, the foundation of every kind of national progress. The Report for the year 1935, which is just published, is a volume of 276 pages and contains about a dozen valuable charts and maps illustrating health conditions in the different parts of the country. It is priced at Rs. 4-4 as, which is too high a price for an average educated Indian. If it is not possible to bring down the price considerably, it is necessary to publish at a low price, a handy summary containing essential facts and figures, particularly those that are necessary for popular health propaganda.

High Mortality Rate

The report for 1935 reminds us of the sad fact that the problem of national health is still far from being solved to any appreciable extent. In guarded terms it only assures us that the year was "less unhealthy than usual." Our death rate is still the highest among civilised countries, except Egypt, where the rate is 27 per thousand, against 24 in British India and 12 in England and Wales, and in respect of infant mortality India is the worst sinner, with a death rate of 164 per 1,000 births, as against 57 in England and Wales. Neither the people nor the Government can escape the responsibility for this largely preventable loss of life. Nearly as preventable is the loss on account of epidemics like cholera and small-pox. But mortality from both these diseases continues to be frightfully high, and in the year under review it showed an increase of 24,000 deaths. Cholera carried off 217,162 lives as against 199,708 in 1934, the corresponding figures for small-pox being 91,000 and 84,000. The ravages of cholera have been terrible for years past. The mortality from it has steadily increased since 1932 and it is no solace to be told that the havoc wrought in the previous quinquennium was still more terrible, being about 15,00,000. Similar figures for small-pox for the past ten years have not been given, an unjustifiable omission. Presumably

the figures are frightfully high. Turning to other diseases, the Report says: "Large as these major epidemic figures are it must be remembered that there are other diseases which cause much greater havoc, although that is of a less dramatic nature. The most important of these is, of course, malaria. It has been estimated that deaths from malaria during 1935 amounted to 1,680,000." The most distressing feature of the abnormally high mortality disclosed by these figures is that it is largely preventable.

Poverty—

The Root Cause

The most important question is how to combat this high but preventable mortality. That medical relief is necessary on a much wider scale, especially in rural areas, is obvious. But what is far more efficacious is preventive action. A plentiful supply of pure water is bound to reduce the ravages of cholera considerably. Wider spread of vaccination, with due precautions, must combat small-pox, though better sanitary conditions can prevent this and many other epidemics. But there is another important but generally little noticed point about preventive campaign. Referring to this Report rightly observes: "Abundant supplies of quinine and the multiplication of tuberculosis hospitals, sanatoria, leprosy colonies and maternity and child welfare centres are no doubt desirable, if not essential, but none of these go to the root of the matter. The first essentials for the prevention of disease are a higher standard of health, a better physique and a greater power of resistance to infection. These can only be attained if the food of the people is such as will give all the physiological and nutritional requirements of the human frame." This is profoundly true so far as it goes. But the Report does not go far enough. It is right in recommending educative propaganda about nutrition. But the chief want of millions of Indians is not that of scientific knowledge of the ingredients of food stuffs. It is rather that of the wherewith to buy any tolerably good food. It is true that where a villager has to live only one meal a day, that meal needs to be properly balanced. But, after all, one meal can do but little in preventing malnutrition. Health weeks are excellent propaganda. But lectures on vitaminology are no substitute for the second meal.

Japanese "Indignation"

In the face of the positive testimony, such as that of the British steamer "Kaying," to the deliberate and most inhuman slaughter of inoffensive Chinese fishermen by a Japanese destroyer, the world will refuse to treat with any respect the denial of the Japanese Foreign Office that Japanese troops have not been attacking any non-combatants in the present campaign. The world has seen too many instances of Japanese frightfulness in China during the past several years to swallow the cock-and-bull stories emanating from Japanese diplomatic sources however high. It is stated that the "utmost indignation" prevails throughout Japan at the League

Assembly's action condemning Japanese bombing. If that be a fact, it is time that the Japanese masses, who have been completely hoodwinked by the military junta, were made to realise that the world has quite different ethical standards than those that have been set before them by their masters. The world will continue to castigate the ruling caste in Japan till they give up the ways of highway-men and pirate in international dealings. They will do so only under pressure of a world-wide economic boycott of their country's goods. In this connection we are glad the Congress President has lost no time in appealing to the public to boycott Japanese goods. We trust his appeal will have a wide and immediate response.

A Welcome Reform

The United Provinces Legislative Assembly has practically put the final nail in the coffin of the rule, embodied in the Government of India Act governing the languages in which speeches in provincial legislatures can be made. This rule makes the use of English language obligatory on all members who are "sufficiently acquainted" with it and permits the use of Indian languages only when any member is not so acquainted with it. This provision is calculated to give undue importance to English. When, in provinces like U.P. and Bihar, Hindustani is the mother-tongue of the vast majority of the population, there is no earthly meaning in the members using a foreign tongue to express their ideas

in preference to the mother-tongue. But the rule, as it stands in the Government of India Act, prevents the use of the mother-tongue by persons conversant with English. The U.P. Legislative Assembly has now successfully nullified this objectionable rule by adopting a resolution empowering the speaker "to require or permit any member who is sufficiently acquainted with English to address the Assembly in Hindustani"—which means that members who may be quite proficient in English will henceforth be free to speak in Hindustani if they so wish. This is as it should be. It is to be hoped steps will be taken in all other provinces to secure full freedom to members to speak in their mother-tongues.

DR. ANNIE BESANT

A Raja Yogi In The Strictest Sense

(BY AN INDIAN THEOSOPHIST)

Dr. Annie Besant was born on 1st October, 1847, i.e. 90 years ago this day. She passed away from this world on September 20, 1933. She lived for full 86 years. Her real life—one may call it second birth—can be said to have begun when she first met Madame Helena Petrovna Blavatsky, Founder of the Theosophical Society in 1889. Till then she was a Free Thinker working with Charles Bradlaugh. The conversion happened thus: H. P. Blavatsky gave her the two volumes of Secret Doctrine for review. A perusal of these two masterpieces on occultism enabled her to have a glimpse of the Great Law and its Course. Her erstwhile inner struggle which had cost her family and friends came to an end and she realised the mission she had to fulfil. She joined the Theosophical Society on 22nd May, 1889 and was at once drawn irresistibly to India. She first set her foot on this sacred land on 16th November 1893 and thereafter for full forty years gave her all to India, living a dedicated life, working in different spheres without rest and without consideration of health or money, always touring, writing and speaking as few have done. She has planted many a lamp-post on the Path she has tread and has enriched humanity by her vast experience. It is for the pilgrims to search out these lamp-posts and make them shed light to make smooth their way.

A True Raja Yogi One thing stands out prominently in her life: She was a Raja Yogi in the strictest sense. If by Raja Yogi we mean one who knows how to develop and direct nature's finer forces within oneself and outside in furthering the evolution of humanity, she was an adept at that.

In one respect she was greater than the Raja Yogis of old. Ancient days Raja Yogis confined themselves to the Ashrams and gave instructions in spiritual science to those who sought it. A great portion of humanity was, probably, at that time in childhood stage. It is now passing through the stage of youth (hence somewhat reckless and boisterous) when knowledge has to be brought to its doors to tune down. Dr. Besant acquired that knowledge but was not satisfied with mere acquisition. She applied this knowledge to different problems and in different countries. There is not a subject on which she has not thrown new light. She founded several new movements and directed them, which for a time galvanized the whole world into new life. In short her whole life was one of Yoga in Action.

An Evolutionist This knowledge of Yoga she applied to India and her problems with great care. The day she arrived in India she could have taken up political work easily, for besides possessing many great qualities she was a great orator and a powerful writer too. But, No. She studied India's condition well, her soul her intellect and her emotions and planned her work accordingly. For full quarter of a century, till she started the Home Rule movement, she worked hard for India's social, religious and educational regeneration. She believed in REVOLUTION IN EVOLUTION.

Lastly, though not the least, she carried the knowledge of Yoga still further and applied it to the evolution of humanity as a whole. She saw in the unity of Great Britain and India the future peace and prosperity of the human race and she directed all her Theosophical activities for many years that way. She also firmly believed that India the home of spirituality could show to the world the way to unfold the "Christ" principle in man which she (India) has already begun doing on a humble scale.

An eminent historian of civilisations has expressed a belief that each civilisation at its peak is faced with a challenge to make a leap forward, a problem, arising from its growth, which demands solution." ("Manchester Guardian," 3-9-1937)

Bridge The Gulf

India is now on the threshold of a new era in her history. She is struggling to take a big leap forward but there are two wide chasms staring at her. One is the lack of proper understanding between Hindus and Muslims and the other of mutual trust between India and Great Britain. Theosophists in particular and Indians in general can do no greater homage to the revered memory of the late Dr. Annie Besant than by striving wholeheartedly to bridge these two great gulfs, thereby enabling India to take her rightful place in the comity of nations as the spiritual teacher and guide of humanity.

OUR EUROPEAN LETTER

PRAGUE, Sept. 24.

At the Nuremberg Nazi Congress of this year the German Chancellor Hitler put forward in more definite terms the claim for colonies. The conventional arguments were advanced: pressure of population and difficulties in regard to raw products. Critics stress these reasons as being flimsy since in the period that Germany had colonies the number of her inhabitants that settled in the colonies represented a negligible number and German trade with those colonies was an extremely small fraction of her total foreign trade.

There is obviously no denying that the German demand is influenced keenly by considerations of prestige calculations of gaining posts of strategic value, and interests of finding an outlet for forces and that it is bound up with an internal strain precipitated by the close concentration on armament expansion. The increase of urge of the last mentioned factor, which is nearly allied with the first, is greatly responsible for Hitler assuming a more definite tone in regard to the colonial claim. Certain circles are disposed to regard the colonial demand as representing a move for adding pressure on Britain, to give a freer hand to Germany in relation to Eastern Europe. While in Britain there is an inclination in certain quarters to give Germany a freer hand in Eastern Europe, there is also a critical attitude to it which would watch the developments in the East.

Strategical Considerations

And among good many of those in Britain who are inclined to take an elastic view of the German stand in relation to Eastern Europe, there is a marked antagonism to the German colonial demand, keenly linked as well with strategical considerations as indicated in the publication "The British Colonial Empire and the German Claim" brought out a short while back by the Empire

Economic Union in London. In the discussions on the colonial issue the terms "have" and "have-nots" are vaguely employed, taken much as clichés from sources pressing the claim for colonies. Such employment or acceptance implies an abandonment of care or attention to the fact that fundamentally thereby a recognition is given to the idea of imperialism or foreign domination and a wrong done to the real "have-nots," that is, lands deprived of their independence. The path to progressive development is then, in the direction of a liquidation of the imperialist system, the nature of which might vary according to circumstances and not in that of new divisions that will give a fresh force to the idea of imperialism. In Europe, Italy while inclined to lend encouragement for German colonial aims, partly for diplomatic considerations and partly since such aims touch Italy less directly, is at the same time more alert to the extension of the German hold in the Danubian area and South-Eastern Europe, as it is an historic fact that with a Great Power holding a dominant position in South-Eastern Europe, Italy cannot enter on an active Mediterranean policy. Further, in South-Eastern Europe stand the two systems of the Little Entente and the Balkan Union.

In regard to North-Eastern Europe, the Polish problem is being closely studied. The Russian position also in ways represents an improvement, though in Berlin there are speculations regarding the check which Russia has suffered through certain internal developments. All these factors suggest the continuation of a condition of tension in Europe. The stressing newly of the colonial claim by Germany is a sign and symptom of this though not offering a solution to it.

Mussolini's Visit To Hitler

Estimates about the political significance of Mussolini's visit to Hitler at the moment indicate a restraint, strengthened by the discussions that took place two

Meeting Of Dictators

From Our Own Correspondent

The latest Anglo-French move regarding the withdrawal of volunteers in Spain, says Reuter, will be an outspoken document. In that case it will not be an Anglo-French Note! According to the Naval Patrol scheme, in the eastern Mediterranean the three navies—British, French and Italian—"will co-operate closely." Close enough to be within torpedo range of each other? It is the whole-time job of the British, says Mr. Syed Hossain, to play the Hindus against the Mussalmans. Communists, meanwhile, try to facilitate the process by helping in an honorary capacity. The minorities in India, said Mr. Hossain, were suffering from a "fear complex." If he wishes to see aggressive manifestation of this complex he should attend the forthcoming session of the Muslim League. And, then, he should attend the Hindu Mahasabha to see how even some avowed champions of the majority, too, suffer from the same complex.

Funeral Of Masaryk

The funeral of Masaryk held two days back in Prague manifested his great popularity and hold. Overnight the capital of Czechoslovakia, a city with a population round a million turned into one with over two millions, people from all parts of the country turning up to pay their last tribute to the first President and since his retirement, eighteen months back, reverentially referred to by his people as "President Liberator." Masaryk's funeral ceremony was a manifestation not only of his great popularity and the deep and wide affection with which he was held, but at the same time also of the stability and assertion of the popular democratic basis on which he developed the State. It presented a participation of millions without pomp or pressure such as has been associated with several of the dictatorial regimes. The presence of the Premiers of Yugoslavia and Roumania as heads of special delegations from their lands recorded a solidarity of the Little Entente.

FRANKLY SPEAKING

BRITAIN'S DEVISUS DIPLOMACY

Instead of giving a courageous moral lead to other nations Great Britain is pursuing at Geneva a most devious and unedifying course which is calculated to make the victims of Fascist and Japanese aggression bitterly rue the day when they put faith in the professions of British politicians about the sanctities of treaties and freedom of nations, small and big. Both Spain and China have directly invoked the League to intervene, after citing the provisions of the League Covenant which have been flagrantly violated by Italy and Japan. Instead of suggesting a prompt response to the appeals and thereby ensuring respect for the League, the British spokesman practically suggests shelving of those appeals, and comes forward with an offer of mediation between Japan and China, on the one hand, and a sop to Italy to buy off its opposition to non-intervention in Spain, on the other. Tactics of this nature are calculated more to whet the appetite of the aggressors than to lessen the sufferings of their victims.

AMEND THE SARDA ACT

The conference of forty-two women's institutions in the city held on Wednesday to support the Bill to amend the Sarda Act, introduced by Mr. B. Das in the Central Assembly, can give one but a faint idea of the short-comings of the Act and the urgent need for a radical change therein. Mr. S. S. Patkar, specially invited by the conference to address it, lucidly explained those shortcomings and showed that the Sarda Act was in practice a dead letter and grievously shattered the hopes raised by it. The Assembly and the Government should have no hesitation to accept the principle of Mr. Das's Bill and improve it by adding the clause, suggested by the women's conference, that offences against the Sarda Act committed by British Indian subjects even outside the limits of British India should be punishable in the same way as other offences under the Indian Penal Code.

INDO-BRITISH TRADE TALKS

Contradictory reports have recently appeared in the Press about the progress of Indo-British trade talks, but the Commerce Member's blank refusal to throw any light on the negotiations and the report that Sir Purshotamdas Thakurdas and Messrs G. D. Birla and Kasturbhai Lalbhai are definitely returning to India very soon confirm the general impression that some deadlock has arisen in the talks. In these circumstances the Indian Trade Commissioner's assurance that the negotiations are proceeding normally can be accepted only with many reservations. It appears from our own London correspondent's report that the Indian Advisers have refused to compromise Indian interests and this has somewhat upset British plans. In answer to a question in the Assembly by Mr. S. Satyamurthi the Commerce Member said that Government had not come to any conclusion whether they would consult or abstain from consulting the Assembly. It will certainly not help Government to ignore the Assembly in this matter.

A CONTRAST

The Commerce Secretary to the Government of India, who competently pointed to the "Dufferin" Training Ship as concrete evidence of the solicitude of the Government for the progress of Indian shipping may well note what measures are being adopted in Great Britain to train not only boys but even girls for marine service. Three hundred girls hailing from all parts of the British Isles and comprising clerks, shop assistants, students, domestic servants, typists and telephone operators, aged 16 years and above, are undergoing a training course at sea at Portsmouth for British Sea Rangers, the feminine counterpart of Sea Scouts. Two ships, the "Immaculate" and the "Fondovant," have been placed at their disposal. Every one of the 300 girls taking part in the course is required to earn an A 1 medical certificate and to swim fifty yards.

They will sleep in hammocks, be submitted to regular ship's discipline, and learn such crafts as sail-making and rope knotting and splicing, as well as getting practice in rowing and sailing. The cooking will be done by marines, but the rest of the work will be carried out by the girls, who will clear and hoist boats, scrub decks, and keep watches. Instructions will be given every morning until eleven o'clock when the order "Pipe hands to bathe" will be issued. Compare the easy facilities thus provided to British girls to get themselves trained as sailors, with the prohibitively costly course of the "Dufferin."

Educational Reconstruction

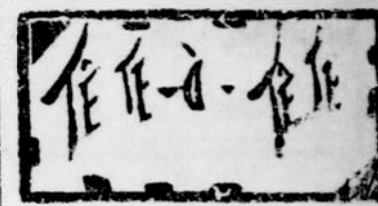

To the Editor of "The Chronicle" Sir—I would offer the following suggestions for educational reform in the Presidency: If vernaculars be adopted as the media of instruction, much of the useless time spent by the boys will be saved. The whole pre-collegiate course therefore, must be covered in nine years, instead of eleven years as it is at present. Standards I to III will form the primary stage, IV to VI the lower secondary stage and VI to IX the higher Secondary stage.

The subjects to be taught in these stages may roughly be these: The Primary stage: Vernacular, Arithmetic, History (of the province and of India), Geography (of the province and of India), drawing, music and some useful handicraft (History and Geography of India to be in bare outlines).

The Lower Secondary Stage—Add to the above-mentioned the following: Hindi, English, History of England (elementary), civics (elementary) and the rudiments of Algebra, Geometry, Physics, Chemistry and a Classical or foreign language (care should be taken to lay down a simplified course in all these).

The Higher Secondary Stage—(a) The Compulsory Group: Vernacular, English, Hindi, Civics, History of India, Arithmetic.

(b) Optional Group: Any of

The latest Anglo-French move regarding the withdrawal of volunteers in Spain, says Reuter, will be an outspoken document. In that case it will not be an Anglo-French Note!

According to the Naval Patrol scheme, in the eastern Mediterranean the three navies—British, French and Italian—"will co-operate closely."

Close enough to be within torpedo range of each other?

It is the whole-time job of the British, says Mr. Syed Hossain, to play the Hindus against the Mussalmans.

Communists, meanwhile, try to facilitate the process by helping in an honorary capacity.

The minorities in India, said Mr. Hossain, were suffering from a "fear complex."

If he wishes to see aggressive manifestation of this complex he should attend the forthcoming session of the Muslim League.

And, then, he should attend the Hindu Mahasabha to see how even some avowed champions of the majority, too, suffer from the same complex.

India to-day according to Mr. Hossain, is still in the middle ages. Even that, we believe, is too flattering a compliment to the views and notions of many of our "Moderate" and "Conservative" politicians.

Signor Gayda, the Duce's mouthpiece, says that "Italy and Germany will offer definite resistance to the creation of a second Moscow in Madrid or Barcelona."

(Our italics). This is interpreted in Britain, we believe, as a moral vindication of the Non-Intervention policy!

The Congress President and the Congress were severely criticised at a meeting of the "Democratic Swaraj Party" held in Poona. President Jawaharlal, on his behalf and on behalf of the Congress, should thank the Democratic Swarajists for such clear vindication of the Congress policy.

In particular, they condemned Pandit Jawaharlal Nehru's attitude towards the Hindu Mahasabha.

Are we allowed to draw inferences as to the possible affinity between the Democratic Swaraj Party and the Mahasabha?

Maulana Zafar Ali Khan speaking at Calcutta, asked Muslims not to join "any non-religious groups, such as the Congress, whose President had declared himself a follower of no religion."

Would he, then, prefer them to join a religious group like the Hindu Mahasabha whose President never forgets to proclaim his religious associations?

The status of the journalist in Nazi Germany has been defined as that of "a public servant standing under State protection." "State protection," of course, implies periodical visits to concentration camps and similar other privileges!

From the U. S. A. comes the news that American women possess and control seventy per cent of private wealth.

And now we suppose they must be busy investigating where and how their husbands have been hiding the remaining 30 per cent.

"Lack of Ability Hidden By Mustache," runs a headline. No insult intended, we hope, to Hitler.

"While I was out with some of the fellows the other night, a burglar broke into the house." "Did he get anything?" "I'll say he did—my wife thought it was me coming home."

the following four groups:—(1) Mathematics and Science (2) Languages and History (3) Fine Arts: Music, Drawing, Painting, Carving, etc. (4) Some allied technical manual handicrafts

Throughout the secondary stage technical instruction is to proceed side by side graded, planned and co-ordinated with technical institutions as outlined before.

Throughout all the three stages, physical instruction is also to proceed both in theory and practice, the former comprising the rudimentary knowledge of the rudimentary Hygiene, First Aid, and House-hold treatment of ordinary ailments, etc., etc.

A. K. MUKHERJEE

INDO-BRITISH TRADE NEGOTIATIONS

Speaker Rules Adjournment Motion Out Of Order In Central Assembly

NEW CLAUSES ADDED TO INSURANCE BILL

SIMLA, Sept. 30. After questioning the President informed the House of the receipt of an adjournment motion from Mr. Satyamurti regarding the refusal of the Government to give an undertaking that they would abide by the verdict or even consult the Assembly before coming to any decision regarding the Indo-British trade negotiations at present carried on in London.

Sir Sultan Khan argued that the motion was not urgent as the subject matter had been before the House in the form of a question and answer for the last one year and there was even a resolution. Whether it reached or not was not his concern. He maintained that the matter was not urgent.

ALARMING RUMOURS. Mr. Satyamurti urged that the matter became urgent when the Commerce Member had stated yesterday that the Government had not made up their mind whether to consult the House or to abstain from doing so. Recently there had been alarming rumours of a breakdown in the Indo-British trade negotiations and in view of the rapid closing down of the session and the inconclusive nature of the negotiations which were dragging on in a protracted manner, and in view of the fact that the Assembly might not meet till the end of January next, the matter was most urgent.

MOTION RULED OUT. The President, Sir Abdur Rahim, ruled the motion out of order as the question had been before the House in some form or other since September last year, and all that had happened yesterday was a reiteration by the Commerce Member that Government had not come to any conclusion whether to consult the House or not. Furthermore, constitutionally, they were not necessarily bound to consult the House.

INSURANCE BILL DEBATE

Clause 86 relating to the definition of a Mutual Insurance Company and Co-operative Insurance Society which passed over from yesterday was passed to-day with the proviso moved by Mr. Thirumala Rao that Co-operative Insurance Societies in existence at the commencement of this Act, shall be allowed a period of one year to comply with the provisions of the Act.

The House agreed to the addition among miscellaneous provisions of a new Clause 97 (A) laying down that except where it is instituted by the Superintendents of Insurance, no proceedings under this Act against an insurer or any director, manager or other officer of an insurer shall be instituted by any person unless he has obtained the previous sanction of the Advocate-General of the Province, where the principal place of business in British India of such an insurer is situated.

QUICK BUSINESS. The House transacted quick business after lunch and disposed of up to Clause 102. On the motion of Mr. Ananthasayanam Iyengar, the following new Clause 100 (A) was added: "Notwithstanding anything to the contrary contained in this Act, an insurer carrying on business in life insurance shall be at liberty to declare an interim bonus or bonuses to policy holders, whose policies mature for payment by reason of death or otherwise during the inter valuation period on the recommendation of investigating actuary made at the last preceding valuation."

The House passed another amendment of Mr. Ananthasayanam Iyengar to Clause 101, providing that rule or rules made by the Governor-General-in-Council shall have the force of Law unless the same are previously laid on the table of both the Houses of the Indian Legislature for the period of a month for modification in a manner as it may think fit.

PROTECTIVE MEASURE. Mr. Satyamurti supported by Mr. Marali, said that Government had ample time between now and Delhi session when the bill could come back from the State to frame these amendments and place them before the House.

Mr. Sen moved the addition of a new Clause to be inserted in Clause 102 namely, that the Central Government may by notification in the Official Gazette constitute any insurer constituted, created or domiciled in an Indian State from the provisions of the Act relating to deposits of Sub-Section (1) of Section 26, relating to keeping

Assembly Questions

Why Ban Tri-Colour In Cantonments?

No Prohibitory Orders Issued By Defence Dept., Says Col. Ogilvie

(From Our Correspondent). SIMLA, Sept. 30. Col. Parsons Foreign Secretary stated in the Assembly to-day replying to Mr. Mohanlal Saksena that the only further information available regarding Indians in Shanghai is that the Government of India have requested the Bengal Government to receive Indian subjects who were recently evacuated from the fighting area in Shanghai, feed them and where necessary give them advances for their journey home.

Mr. Badridatt Pande asked whether the Defence Secretary was prepared to consider the desirability of issuing specific instructions to Cantonment officers asking them not to interfere with the holding of constitutional (election and political) meeting and flying of National Flags within the Cantonment areas.

Col. Ogilvie replied, that the matter was under consideration. Question: Is it a fact that the Defence Department instructed the local Cantonment authorities to prohibit flying national flags within the Cantonment areas? If so, why? If not, what is the attitude of the Government in this respect?

Answer: "I presume the Hon. Member is referring to the Flag of the Congress Party not to Union Jack. The Defence Department have issued no such instructions."

REPATRIATION AND GOVT.'S LIMITATION

Home Secretary's Reply To Satyamurti

SIMLA, Sept. 30. Replying to a question the Home Secretary informed Mr. Satyamurti that 72 prisoners, 34 of whom were convicted in Bengal, seven in Madras, 16 in Bihar, six in the Punjab, six in Assam, two in Delhi and one in Ajmer Merwara, had so far been repatriated from the Andamans. The question of their release was not one in which the Government of India had any right to interfere, except in case of the prisoners convicted in centrally-administered areas. There was no intention of remitting the sentences of the latter.

The Foreign Secretary told Mr. Mohanlal Saxena that with reference to the Indian subjects, who were being evacuated from the fighting area in Shanghai, the Government of India had requested the Bengal Government to receive them, feed them and wherever necessary, give them advances for their homeward journey.—United Press.

Cyclone Havoc In Bihar

PATNA, September 30. The cyclonic weather is still persisting. The steamer service between Digha Ghat and Patna Ghat has been stopped, the movement of steamers in the river being very risky.

Plight Of Steamer

The steamer that left Digha Ghat this morning is lying at anchor in midstream, with all her passengers and crew, without any prospect of returning or proceeding further unless the fury of the cyclone decreases.

Sunk In Ganges

Enquiries show that two steamers of the Indian Steam Navigation Company lying at Digha Ghat jetties were sunk. No loss of life is reported, there being no passenger on board and the crew escaping. But all the cargo valued at several thousand rupees were lost.

Many cargo boats have capsized in the river. Rai Bahadur Radha Kisen Jalan's motor launch was smashed and sunk.

Patna In Darkness

Electricity has failed in the city, plunging it in darkness.—United Press.

THREE CARGO BOATS SUNK

Plight Of Patna Citizens

PATNA, Sept. 30. Furious stormy wind, accompanied by rain, has been sweeping over Patna for the last 24 hours, as a result of which three cargo boats are reported to have broken off anchor in the river Ghat, and were sunk. Some country craft were also reported to have been sunk. The loss of cargo is not ascertainable yet.

PLIGHT OF CITY

Streets in Patna are completely deserted, all staying indoors. Shops have been closed, and all

activity and business are at a standstill. Many roadside trees have been uprooted, blocking traffic. Portions of old houses have collapsed at many places in the city. No casualties are reported so far.

The fury of the wind continues unabated.—A. P.

Normal Service Resumed

CALCUTTA, Sept. 30. The Divisional Superintendent, Eastern Bengal Railway, wires from Sealdah:—Normal train service between Jadabpur and Garia was resumed at 2-35 p.m. to-day.—A.P.

General Tsing Pa' Lie of the Chinese Military Transport and member of the Supreme Military Commission of China, who passed through Bombay on Wednesday by Italian boat. He is on a tour of Europe.

BOYCOTT OF CLOVES

Bombay Urges Bengal Congress To Watch Consignment

CALCUTTA, Sept. 30. The Bengal Provincial Congress Committee have received a wire to-day from the Bombay Provincial Congress Committee informing them that 400 bales of cloves have been shipped from Zanzibar in steamer "Talkialwal", the destination of which is Hamburg in Germany. There is every likelihood of the cargo being transhipped at Calcutta.

The Bombay Provincial Congress Committee request the Bengal Provincial Congress Committee to keep a watch on the ship and wire developments. In pursuance of this request the Bengal Provincial Congress Committee have sent some of their workers to keep an eye on the ship when it arrives here.—United Press.

TOWARDS UNIFORM LABOUR POLICY

Congress Ministers To Confer At Calcutta During A. I. C. C. Meeting

CALCUTTA, Sept. 30. During the forthcoming session of the A. I. C. C. a Labour Conference will be held in Calcutta in which all Ministers in charge of Labour, belonging to the Congress Provinces, will participate. The object of the Conference is to arrive at a solution of the problem relating to Labour with which India is faced to-day.—United Press.

"SOLFO" WINS JOCKEY CLUB STAKES

(Special Cable) LONDON, Sept. 30. The Jockey Club Stakes run at New Market over a distance of one mile and six furlongs resulted as follows:—
SOLFO (Lowrey) 1
FLARES (Jones) 2
FAIRCOOPY (Perryman) 3
Six ran. Won by neck. Head separated second and third. Winner was trained by Basil Jarvis.
Starting prices:—9/1 Solfo, 5/1 Flares, 7/4 Faircoopy.

English Women's Golf

St. ENOCC, Sept. 30. To-day's semi-finals of the English Women's Golf Championship were played in strong wind. Wanda Morgan (holder) meets Madeleine Fyfe, former Warwickshire Champion, in the 36 holes final to-morrow.

To-day playing was below form. Morgan beat Mrs. Alan Hartley of Cheshire 3-1 and Fyfe beat Brenda Norris, the 21-year-old Sussex Champion, 2-1.

BOMBAY FLYING CLUB MEMBERS LEAVE BUSHIRE

BUSHIRE, Sept. 30. The members of the Bombay Flying Club arrived here last evening and left this morning for India via Lingah and Jask.—Reuter.

2 LONDON JOURNALS TO COMBINE

LONDON, Sept. 29. The "Morning Post" is announcing to-morrow that from October 1, the "Morning Post" will be amalgamated with the "Daily Telegraph" and a combined paper will be published under the title "Daily Telegraph and Morning Post" and will be under the control of Lord Camrose.—Reuter.

Prohibition In Action

Madras Premier To Inaugurate It At Salem

MADRAS, Sept. 30. The Premier, accompanied by the Excise Minister and the Minister for Public Information, is leaving for Salem to-night on a ten days' tour in connection with the inauguration of Prohibition.—A. P.

Police Decree Dissolves Evangelical Seminaries

BERLIN, Sept. 30. The spiritual life of the opposition Evangelical Churches is largely paralysed by a decree of Herr Himmler, Chief of the secret Police dissolving the Church's Theological Seminaries and forbidding examinations of students.—Reuter.

RETRENCHMENT IN N. W. F. P. ASSEMBLY

ABBOTTABAD, Sept. 30. In the Frontier Assembly to-day the Finance Minister, the Hon'ble Mr. Bhanju Ram, said that Government were considering the question of retrenchment. If steps taken did not result in a substantial saving compatible with efficiency of administration, the appointment of a Committee to consider retrenchment schemes would be considered.

MADRAS MORATORIUM BILL

Postponed For A Few Weeks

MADRAS, Sept. 30. Contrary to expectations, the Agriculturist Moratorium Bill, though included in the agenda, was not introduced in the Madras Assembly to-day. On the other hand, the Premier made a statement that it had been postponed for a few weeks in order to overcome certain legal and drafting difficulties.

The Bill which was published a few days ago at the instance of Government, the Premier said, had attracted much public attention, evoking good support. The very character and aim of the proposals, he realised, needed speedy action, and he hoped to get over the difficulties and introduce the Bill soon. If however, there was any sort of harassment on the part of creditors on debtors during the interval, the Premier warned that Government would not hesitate to take prompt action to save ryots in debt.—A.P.

CRAIK FOR PUNJAB GOVERNORSHIP

(From Our Correspondent) SIMLA, Sept. 30. Lobby reports show, Sir Harry Haig Governor of the United Provinces proceeds on four months' leave shortly.

I understand, Sir Henry Craik, Home Member, Government of India will act as the Governor of United Provinces during the absence of Sir Harry Haig after which Sir Henry Craik will succeed Sir Herbert Emerson as the Governor of the Punjab in summer next year.

U. P. UPPER HOUSE ASSERTS ITSELF

Entertainment Bill Postponed

LUCKNOW, Sept. 30. The Legislative Council refused permission this morning to the Government to move the consideration of the U. P. Entertainment and Betting Tax Bill passed by the Assembly on September 23, and laid before the Council on the 29th afternoon in view of the shortness of time.

On the question of postponement, Dr. Katju, the Minister for Justice, raised a point of order that the Upper House had no power to postpone the consideration of a Bill coming from the Lower House. The House could only refer a Bill to a Select Committee but that stage too had been gone through by the Assembly. The President, giving a provisional ruling, gave the benefit of doubt to the opposition and held that the motion for postponement was in order. The Bill will be considered after the Dussehra holidays.

It is understood that subject to this ruling other Bills coming to the Council will also be postponed.—A.P.

Mahatma Put India On World's News Map NON-VIOLENT MOVEMENT ATTRACTS

Syud Hossain Pleads For Unity And Scientific Outlook

India,—the second largest numerical unit in the world; a famous and resourceful land with a historical background second to none in the world, a nation which had glorious achievements in every single branch of human progress,—had for some incomprehensible reason been wallowing to-day in the lowest depths so far as its social, economical, political and cultural life was concerned.

How did that happen? Why was not the India of three hundred and fifty millions not free?

That was the feeling of every foreigner man or woman about India, according to Dr. Syud Hossain who delivered an interesting lecture on "India Abroad" on Thursday evening at the Jinnah Hall which was crowded to overflowing.

The meeting was held under the auspices of the Bombay Provincial Congress Committee and Mr. S. A. Brelvi presided.

HE SERVED INDIA ABROAD

Mr. S. A. Brelvi, who warmly welcomed back to India to Dr. Syud Hossain on behalf of the Bombay Provincial Congress Committee. Before he went out of India Dr. Syud Hossain was connected with the Home Rule Movement and if he had remained in India, he would have become one of the most influential leaders of their national movement. But though away from India for over sixteen years he constantly served India by his speeches and writings and through the contact he made with leading men and women in every walk of life in America. He acted as an effective unofficial representative of India. He nailed to the counter thousand and one lies spread about India by the enemies of her freedom. He interpreted to the west the message of India, the constructive message of peace, embodied in the Satyagraha movement of Mahatma Gandhi. With his help it would be possible for Indians to see themselves as others saw them. That might help Indians to prepare themselves to fight for India's freedom, not for the benefit of the one or the other community, but for the benefit of India as a whole.

Dr. Syud Hossain referred, at the outset, to the passing away of one of his best friends, a great patriot and political worker, the late Mr. Omar Sobani. He said that the loss of Mr. Sobani had changed the whole complexion of Bombay for him.

Coming to the subject proper, Dr. Syud Hossain said that he would place before the audience some of the impressions and convictions gathered by him during his tour in almost all parts of the world. The speaker referred to Kipling who had said "What know they of England who only England know?" He would repeat the same thing and say "What know they of India who only India know?" It had been the lot of the speaker to be associated with the representatives of almost all the Western and Eastern countries. He might thus claim to know what kind of notions were entertained by these representatives regarding India.

RESPECT FOR PAST. First of all the speaker found among all the educated men and women of Europe and America a kind of genuine respect for the past, achievement of this country. Side by side with the respect for the past they viewed with a sense of bewilderment the present India. They could not understand the present India. When the speaker said present, he did not mean the immediate present, but the recent history of India. They found that a great land which was as large as Europe minus Russia, a famous and resourceful land, the second largest numerical unit in the world with a historical background second to none in the world, which had had glorious achievements in every branch of human progress, had for some incomprehensible reason been wallowing in the depths. They asked why should it be in such a squalor, and it was not possible to give a comfortable answer. Naturally every free man and woman wanted to know why India of 350 millions was not free.

WHY INDIA IS NOT FREE. To-day if outsiders did not know anything else about India, they at least knew that India was part of the British Empire. What were the factors that made it possible for this great nation to remain in the political situation of the present day. One could not expect every foreigner to make a detailed study of Indian history. Whenever they came across some Indian or someone who had visited India they asked about India. Nevertheless they had a definite and vivid impression floating in their minds about India. They

FRIEND OF INDIA Apart from that, the activities of some in America on behalf of India had helped a great deal in removing the misconceptions about India. The greatest friend of India in America who always put in a word for India or in defence of India, though he might have been single-handed, was Dr. J. T. Sunderland.

OUR LEADERS DO THE JOB Then there were the visitors from India who unquestionably did great things for India. Dr. Rabindranath Tagore visited America. His sheer presence and personality was an asset for India. Americans did not know that India produced such men. His visit was a very great gain for India. Then there was Mrs. Sarojini Naidu. Her tour was responsible for the stock of India to go up in the estimation of Americans. America was much better informed about India than ever before. Another great American friend of India was Dr. J. H. Holmes. Another American friend of India was Dr. Will Durant. The people of America and of the world were watching the developments in India and wanting to find out which way India was going to acquire herself.

INDIA NEEDS HIM Mr. S. A. Brelvi thanking Dr. Syud Hossain for the inspiring speech said that such speeches should be delivered in every Indian village and town. The services of Dr. Syud Hossain were needed in India more than anywhere else.

Startling Figures Of Rise In Population

DECLINE IN INDIA'S DEATH RATE

Infantile Mortality Shows Downward Trend

The infantile mortality rate has shown a distinctly downward trend during the past two decades. Although some considerable reductions have been recorded in certain provinces in 1935 the infant death rates recorded in India are still pitifully high states the annual report of the Public Health Commissioner with the Government of India for the year 1935.

What Analysis Shows

A helpful analysis is made of the deaths under one year and it transpires that 40 per cent. of these occurred in the first month. Of the deaths in the first month, 61 per cent. occurred in the first week. Of the total deaths in India 50 per cent. were among the children under five years of age.

Need Of Organisation

These figures go to show the extreme necessity of developing in India an organisation which will care for the health of the children and the mothers. An attempt has been made in recent years in Bombay city accurately to diagnose the different causes of infantile mortality. Debility and respiratory diseases account for 70 per cent. of these deaths.

PUBLIC HEALTH COMMISSIONER'S REPORT FOR 1935

The report is a voluminous one dealing with a wide variety of subjects, all of which are never-the-less closely concerned with the prevention of disease and with improving the physical standards of India's population.

It is divided into twelve sections, two of which are devoted to medical institutions and jails, while the remainder deal with public health activities and research.

Vital Statistics

The estimated population of India on June 30th, 1935, is given as 278,199,545. Births for the year totalled 9,698,794 and the deaths recorded came to 6,578,711.

The Public Health Commissioner states that the year under review was, if anything, less unhealthy than usual. This view is supported by the facts that the recorded births numbered 410,000 more than those of 1934, and the total deaths were less by 283,000.

TOLL OF EPIDEMICS.

There was a decrease of 24,000 in the total mortality from the three principal epidemic diseases—cholera, plague and smallpox. This decrease is largely accounted for by the reduction in plague deaths which fell from 80,000 in 1934 to 32,000 in 1935. The cholera mortality curve which has been rising since 1933 continued to rise during 1935, but the indications are that the present cholera wave has now passed its peak. There was an increase of 7,000 deaths in smallpox.

The report points out that regrettable though the extent of these major epidemics may be, there are still other diseases which cause much greater havoc although perhaps in a less dramatic way. Malaria, tuberculosis, leprosy, infant mortality and maternal mortality constitute grave dangers to the public health. In all these five groups there exists a common predisposing aetiological factor which is of vital importance. This predisposing factor is nutrition.

STARTLING FIGURES

The section devoted to population contains some startling figures. Apparently, at no period in the recorded history of India has the population maintained such a high level as in recent years and, in British India alone up to the middle of 1935, approximately 15 millions were added to the population since the last census was taken in 1931.

Assuming that the same rate of increase has occurred in the Indian States, the population in India as a whole is stated to have increased since 1931 by 5 per cent, bringing the total estimated number to well over 370 millions.

DECLINE IN DEATH RATE

The professor of Vital Statistics and Epidemiology in the All-India Institute of Hygiene and Public Health, Calcutta, has recently published a paper entitled "A Forecast of Population in India at the Census of 1941." This forecast deals with a date only six years ahead, so that it avoids the errors of a long term prediction. The birth rate in British India has been fairly steady from the beginning of the present century but the death rate has tended to decrease from 1921 onwards. Specific mortality rates were worked out for both males and females

for the period 1921-32, using estimated populations for each year, and it was found that the trend of mortality was downwards for all age groups except that of "60 years and upwards" in the case of both sexes. The conclusion drawn is that the fall in mortality recorded in recent years is real and that the death rate is unlikely to show an upward trend, at least in the near future.

That being so, the application of further statistical analyses was justified and by two separate processes figures of approximately 402 and 400 millions respectively were obtained for the estimated population of India as a whole in 1941. Provided, therefore, that the next five years keep free from abnormal epidemic or famine conditions, the population of India in 1941 is likely to approximate to 400 millions.

BIRTHS AND DEATHS
As already stated the births totalled 9,698,794. Of these 5,041,043 were males and 4,657,751 were females, the rates per thousand population being 18.1 for males and 15.7 for females. The death rate amongst males in general is higher than that of females, but on the other hand between the ages 15 and 40 the mortality amongst females is higher.

PRINCIPAL DISEASES.
The Report gives an account of the principal disease affecting India. The only figures available for these diseases are those of recorded deaths which are admittedly defective. While in such circumstances it is ordinarily unsafe to make definite inferences from the statistics of any one year, the Report nevertheless asserts that, on the assumption that the percentage of error is fairly constant, statistics over a period of years may reasonably be expected to give not unduly distorted epidemiological pictures.

Under the varied headings of "Fever" a death rate of 14 per mille was recorded. Similarly, the uninformative title of "Other Causes" accounts for a death rate as high as six per mille. The importance of more accurate information does not require to be stressed. Even a partial exposition of these omnibus groups would almost certainly reveal problems demanding urgent attention. For example, such analyses would give public health departments much needed information on the real incidence of diseases such as pulmonary tuberculosis and enteric fever. In the absence of such epidemiological facts, the health officer is severely handicapped in his efforts to apply preventive methods. Until a general effort in these directions is practised, the epidemiologist using existing statistics may be accused with some degree of truth of mere speculation.

Quetta Earthquake

The report contains an interesting summary of public health activities carried out in Quetta after the disastrous earthquake of 31st May, 1935. The Public Health Commissioner with the Government of India was sent to Quetta within a week of the earthquake to report as to the public health measures required to meet the emergency. The military medical authorities had laid the foundations of a sound public health organisation both in the "refuge camp" and in the occupied civil areas before additional health staff could be obtained from civil sources, but in a very short space

MAIL-RUNNER ASSAULTED

Outrage In Benares District

BENARES, Sept. 30. It is reported that a mail-runner was assaulted with lathis at Benares District, while carrying three bags, which were robbed. He received four injuries one of them being serious. He has been brought to Benares and admitted into a hospital. It is stated that the assailants numbered four. The police and postal authorities are further enquiring.—A.P.

MADURA BOMB CASE JUDGMENT

MADRAS, Sept. 30. Judgment was delivered this noon in the sensational Madura bomb case by the Sessions Judge, sentencing Nagayyan the main accused, to six years rigorous imprisonment on two counts under Sections 4 (A) and (B) of the Indian Explosive Substances Act, sentences to run concurrently, and acquitting the other three accused.

It will be remembered that a bomb explosion occurred some time back at Tirumalai Nayakar Mahal, wherein Government offices and courts are located and the Police arrested and prosecuted the above accused.—United Press.

NARIMAN-PATEL CONTROVERSY

Bombay Citizens' Deputation Sees Gandhiji

Mr. R. S. Nimbkar wires from Wardha on September 30:—The Bombay Citizens' Committee's Deputation consisting of Dr. G. V. Chitambar, Mr. R. S. Nimbkar and A. H. Gadgil waited on Gandhiji on Thursday at two p.m. A memorandum on Nariman-Patel controversy was submitted. A long and free discussion followed. Gandhiji has advised the Citizens' Committee to act as the Vigilance Committee and secure more evidence and fight the fascist tendency, if any, in the Congress and to work democratisation.

of time, with assistance from neighbouring provinces, a suitable number of health officers, etc. were at work under the direction of a senior officer of the Public Health Department of the Punjab.

SALVAGE OF RUINS

On the advice of the Public Health Commissioner, the Government of India decided to proceed at once with the salvage of the ruined city and within 15 months the whole of the debris had been removed; over 9,000 human bodies were discovered during the clearing process. This number is of course additional to the several thousands which were removed in the first few days after the earthquake occurred. By April, 1936, a section of the city was re-opened for occupation and at the present time over 27,000 people are once more living in Quetta in temporary one storey buildings. These, it is hoped, will in time be replaced by more permanent and better houses.

IN HONOUR OF MR. KHER OF MR. BHULABHAI DESAI'S TEA PARTY

SIMLA, Sept. 30. There is one more reason which makes this occasion gladder for us as it happens to be the birthday of Mahatma Gandhi (cheers). There is still another occasion. By a happy coincidence we have amongst us this evening my friend and colleague Sjt. B. G. Kher who is the Prime Minister of Bombay (cheers). With these words Mr. Bhulabhai Desai, Leader of the Congress Party in the Central Assembly, introduced Mr. Kher at a brilliant tea party held by Mr. Desai in Hotel Cecil to-day at which members of the Assembly including Sir Abdur Rahim, President, members of the Council of State, business magnates present in Simla, journalists and others numbering about 200 were invited.

Mr. Desai continued:—"I have known Mr. Kher for a quarter of a century (Mr. Satyapuri interrupted—you must have known him then when he was 25—laughter) and I have great admiration for his ability, intellect and efficiency. But his success during the short period of office has convinced us of one thing, if not those who do not think with us, that there is potentiality in Indian genius for administration and Government and not merely for irresponsible opposition. We have been driven to irresponsible opposition by force of circumstances. I dare say we shall follow what was laid down by the Labour Party, that is, the object of the Opposition is to oppose and the duty of the opposition is to replace Government. Though perhaps in the Centre we are not able to replace our friends in power, I am glad at least in seven provinces by vote of motion we have displaced them and to that extent we have a great sense of satisfaction so far as an occasion like this is concerned (cheers)."

MORE MONEY FOR PUNJAB DISTRICT BOARDS

It is understood that the Punjab Government are relieving the District Boards of an appreciable proportion of their metalled roads. This will release large amounts of funds which the Boards will now spend on village roads and thus help marketing of agricultural produce.—A.P. Special.

MR. KHER ATTENDS CENTRAL ASSEMBLY

SIMLA, Sept. 30. Mr. Mukund Prasad Das, Speaker of the Orissa Assembly, the Hon. Mr. B. G. Kher, Premier of Bombay, and the Hon. Mr. Nalin Ranjan Sarkar, Finance Minister of Bengal were the three noted visitors to the Assembly to-day.—United Press.

happens to be the birthday of the greatest man of India, if not of the world. I was aware of this great occasion and it is a very happy augury that on this day I am able to carry your good wishes."

Referring to his impression of the work carried in the Central Assembly Mr. Kher said:—"I had an occasion to see this afternoon how discussion is being carried on the important Insurance Bill and once before I had seen the Assembly at work in Delhi. We, who work in a lesser sphere in our Provincial Legislative Assemblies look for inspiration and guidance from olympic heights. I was very much impressed by the way in which work was carried on. I thank you all for your good wishes."

Mr. Kher warmly thanked Mr. Desai for his cordial hospitality.—United Press.

"The cordiality and kindness which I have received from everybody I met here, has been, I must admit, overwhelming. To-day

BOMBAY-POONA LINE BLOCKED

Sequel To Deraiment Of Goods Train On G. I. P. Railway

SINGLE LINE WORKING FOR 36 HOURS

TALEGAON, Sept. 30. The Divisional Transportation Superintendent, G. I. P. Railway, wires:—At about 10-50 a.m. to-day, while a tranship goods train was running between Sheelarvadi and Talegaon, the axle of the third wagon from the engine was broken, causing the derailment and capsizing of 29 loaded wagons. The Up main line was therefore blocked.

Single line working has been introduced on the Down main line, and trains are being worked with a slight detention. It is expected that the Up line will be cleared in 36 hours.—

GOVERNMENT TAKES CHARGE OF METALLED ROADS

SIMLA, Sept. 30. It is understood that the Punjab Government are relieving the District Boards of an appreciable proportion of their metalled roads. This will release large amounts of funds which the Boards will now spend on village roads and thus help marketing of agricultural produce.—A.P. Special.

MR. KHER ATTENDS CENTRAL ASSEMBLY

SIMLA, Sept. 30. Mr. Mukund Prasad Das, Speaker of the Orissa Assembly, the Hon. Mr. B. G. Kher, Premier of Bombay, and the Hon. Mr. Nalin Ranjan Sarkar, Finance Minister of Bengal were the three noted visitors to the Assembly to-day.—United Press.

MR. KHER ATTENDS CENTRAL ASSEMBLY

SIMLA, Sept. 30. Mr. Mukund Prasad Das, Speaker of the Orissa Assembly, the Hon. Mr. B. G. Kher, Premier of Bombay, and the Hon. Mr. Nalin Ranjan Sarkar, Finance Minister of Bengal were the three noted visitors to the Assembly to-day.—United Press.

Public Suspicion Must Be Removed

Socialists Urge Thorough Investigation Into B.P.C.C. Affairs

The Executive Committee of the Bombay Congress Socialist Party has issued the following statement to the Press:—

For a long time now there has been a widespread feeling in Bombay that everything was not as it should be with the administration of the B.P.C.C. The disclosures made by Sjt. K. F. Nariman, President of the B.P.C.C. yesterday regarding the handling of B.P.C.C. funds by Sjt. I. S. Patel, Treasurer, and Sjt. S. K. Patil, one of the Secretaries have brought matters to a head. Yesterday's proceeding also made it clear that the Secretaries of the B.P.C.C. and their adherents have no intention of allowing a cleaning up of the administration to take place.

THAT MAJORITY OF ONE

The manner in which the eminently reasonable proposal to appoint a Committee of Inquiry consisting of Sjt. Bhulabhai Desai, S. A. Brelvi and M. R. Masani was opposed by Sjt. S. K. Patil and his supporters and defeated by a majority of one vote, Sjt. Patil, though one of the two persons involved in all decorum and propriety, even though Sjt. I. S. Patel abstained, thus making it possible to defeat the proposal showed that an attempt was

DUTY OF CONGRESSMEN

Whether such an investigation is allowed to be held or obstructed by the Secretaries of the B.P.C.C. and their adherents, this Committee is strongly of opinion that the only way in which the Congress can put its house in order is by Congressmen in Bombay bestirring themselves and rescuing the Congress organization in the City from the state into which it has been dragged by those who to-day control its workings.

Turkey As Defender Of Peace

RAPID ECONOMIC DEVELOPMENT OF THE COUNTRY

(From A Special Correspondent.)

During the last days of August in Turkey a big military manoeuvre was held. The Chiefs of Staffs of many countries as well as all the military attaches of the foreign embassies in Turkey were present. It was the first time in the history of similar events that all the details of the reports of both sides were given regularly to the foreign spectators during the supposed battle, this enabled to have a full criticism of the manoeuvre. Here is a translation from the French paper "Le Tan" written by its military correspondent whom it had specially sent to Turkey.

"Turkey has succeeded to show wonders to the foreign military experts. It is clearly seen that the Turkish Army is the first among the armies of Balkan countries. From the chief General Staff to the smallest soldier the Turkish army is well-informed, well-trained and equipped with the latest weapons and more than that strongly attached to their duty of defending the freedom of their

home. Ataturk can no doubt be proud of this army that he has given to his country in a very short time. All the were very glad to see the Turkish Army so powerful. The past years and incidents have proved that it was right to call Turkey as the defender of Peace."

IZMIR INTERNATIONAL FAIR.
Turkey is advancing with giant steps in her economic life too. Notwithstanding the world economic crisis its general trade increases about 25 per cent. every year. It is generally believed that the international fairs play a great role in the trade relations of the countries. This is clearly seen from the results of the Izmir International Fair that has been closed recently. It is stated that the number of visitors from Turkey and abroad, that had come to this fair this year was more than 5 lakhs, while it was 3 lakhs last year. The big increase in the figures shows the growing importance of the fair. This year 10 countries had participated the fair by having official stalls. Besides that there were many private foreign pavilions.

It is hoped that India will also have a stall in the fair next year. This will certainly give a speed to the development of the commercial and friendly relations between the two countries.

HEAT FATALITY

AT INDORE

INDORE, Sept. 30.

The Karanik President, Labour Union, Indore City wires:—

To-day a Malwa Mills 'Hamal' died on account of excessive heat. The operatives are finding it impossible to work under the excessive heat. Complaints by operatives and the Union were lodged. So far no action has been taken by the Mill Authorities.

IF YOU ARE SEEING SPOTS YOU ARE SEEING TROUBLE

Everyone recognises familiar danger signals such as the red flag used on the railways. Nature, too, gives her danger signals, some of which are more familiar than others. For instance, spots before the eyes warn you your liver is not functioning properly.

The liver is the body's most important storehouse of fuel and energy, the filter blood. To neglect signs that the liver is to court disaster. Watch out, therefore, for spots before the eyes, a dull frontal headache or a general lassitude. Turn immediately to Liver Salt—the wonderful tonic laxative pleasant effervescent health drink which acts naturally through the digestive tract. In the stomach it cools acidity. In the small intestine, it dissolves it forms soother the lining of the liver it stimulates the flow of assisting digestion, particularly of fat. Lower intestine it breaks up the waste by inducing temporarily through of increased water content.

These combined actions make for elimination of waste and the toning up organ in the body, particularly the liver. Andrews Liver Salt endorsement of medical men as the best of all ages and in any climate. Take Andrews regularly. Sold by all and Stores.

THE THREE MUSKETEERS

OH, GOD OF VENGEANCE!

"Yes, yes," said Lord Winter, perceiving what was passing in her mind, "you've seen the signature is missing, but in three days this order will return provided with Lord Buckingham's signature and seal; and twenty-four hours afterwards I will answer for its being carried into execution."

"And I reply to you, sir, that this exile under a fictitious name is infamous!" cried Milady.

"Would you prefer to be hanged in your true name, Milady? You must know that the English laws

are inexorable on the abuse of marriage."

Milady made no reply. "I see you prefer a voyage overseas." That's well, madame; there is an old saying: "Travelling trains youth." And now, madame, till I see you again, which will be to-morrow when I come to announce the departure of my messenger."

As the baron left the room, Felton saw through the open door Milady raise her hands in prayer, and heard her say:—"Oh, God of vengeance! God of goodness! Will thou allow the frightful prospect of this man to be accomplished?"

THE ROPE

Milady ended the day with the same religious chant that had moved Felton so strongly the evening before. Though he did not enter her room this time, it seemed to Milady that she could hear a profound sigh and light steps withdrawing, as if with regret, when she finished her song.

On entering the next day Felton found her standing on a chair, holding in her hand a kind of rope made from torn cambric

handkerchiefs. Fixed in the wall above her head was a gilt hook intended for hanging up clothes and weapons. Felton snatched the rope from her, saying with an agitated voice:

"God forbids suicide!" "When God sees one of his creatures persecuted unjustly placed between suicide and dishonour believe me, sir," replied Milady in a tone of deep conviction, "God pardons suicide, but then suicide becomes martyrdom."

"I am a soldier, madame, and must obey orders. It is my duty to watch over your life, and I will watch."

HE WAS AFRAID TO CROSS A STREET

Lost His Nerve After 12 Months' Agony

RHEUMATISM NOW LYING TO KRUSCHEN

Suffering from acute rheumatism in both his knee joints—treated in hospital twice without result—so unnerved that he was afraid to cross a street—how readily every rheumatic sufferer will sympathise with this man. Then, the incredible happened, he started to take Kruschen—and after fourteen days, he was stepping out as smartly as a soldier. But read what he says:—

"For 12 months, I suffered pain and misery with acute rheumatism in both my knees. Twice, I was treated in hospital—but it was no use. I could not walk up or downstairs. I was afraid to cross the street, for I had lost all confidence in myself. Fourteen days ago, I started taking Kruschen Salts, and already I am a new man. I can walk with a smart step, go up and downstairs with complete confidence. My rheumatism is getting better every day."—P.L.

Do you know what caused Mr. D.L.'s rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear these painful crystals from the system. The numerous mineral salts in Kruschen are bound to dissolve away all traces of uric acid deposits.

Kruschen Salts is obtainable at all Chemists, Stores and Bazaars.

REJUVENATION.

If you want to preserve your good looks or to recapture lost loveliness the first thing you must learn is that perfect beauty is dependent upon a healthy skin structure. Health alone cannot preserve facial beauty. You must aid health in combating destructive forces. As the outer skin decomposes with age it must be removed to reveal the fresh youthful complexion that lies beneath. And the best method, experts agree, of giving Nature a helping hand is the regular use of Mercolized Wax. Buy an ounce or two of this wonderful complexion wax from your chemist, smoothing a thin film over face and neck nightly, invisibly, but none the less effectively, the wax removes the wrinkles, exchanging faded, discoloured complexions for youthful loveliness. Give Mercolized Wax a trial and you will also give your complexion new youth and beauty. Mercolized Wax contains no animal fat.

ASTOUNDING FRENCH DISCOVERY!

RADIOURUM TREATMENT (Atomic Radium Gold Injections) positively cures Gonorrhoea and Syphilis from 2 to 4 days. Amazingly astounding, but nevertheless true. Has created a sensation among doctors, 100 p.c. better than 606, 914 arsenicals, mercurials, bismuth vaccines or electric treatment. Speedy rapid cure. No unpleasant reactions. Laboratory proof of cure given. For this unique and exclusive French treatment consult free: **CLINICAL DEPARTMENT, HERING & KENT, REAY HOUSE, 3rd Floor, Opp Lloyd's Bank, Hornby Road, Fort, Bombay** Telephone No. 24297

SYRUP OF VASAKA (Ahatoda)

With Hypo-phosphites & Tolu

SAFE & QUICK REMEDY for COUGH, COLIC, CATARRH, WHOOPING COUGH, INFLUENZA, BRONCHITIS, ETC.

BENGAL CHEMICAL CALCUTTA : BOMBAY Agents: **ORIENT DRUG AGENCY, Princess Street.**

Motoring & Aviation

INTERNATIONAL AIR MEETING

World's Aviators Gather At Zurich

The Fourth International Meeting at Zurich was held from the 23rd July to the 1st August. This event occupies a unique position for it has always been more international in character than similar meetings in other countries and has attracted a greater number of competitors. Its popularity is best illustrated by the numbers of participants in the four meetings which have been held:—

Countries represented Competitors
1st International 1922 5 37
2nd " " 1927 10 150
3rd " " 1932 11 240
4th " " 1937 14 310

This year's meeting was remarkable for the extent to which military aircraft participated, this was probably due to the character of the events which tended to call for qualities usually associated with military aircraft of one type or another. Although the civil side of the meeting was almost submerged by the more spectacular and military side, it nevertheless held a place of its own and no less than 80 light aircraft of well-known types participated in the meeting, flying distances of anything up to 2,000 miles. Apart from Switzerland the countries represented at the meeting were, Austria, Belgium, Great Britain, Czechoslovakia, France, Germany, Greece, Holland, Hungary, Italy, Poland, Rumania and Sweden. As was to be expected, the aerobatic competition and the race round the Alps attracted the most popular interest. As well as the competitive events, of which the results are given in the table below, the programme included excellent demonstrations by a squadron of the Italian Air Force under the command of Captain Remondino, the famous Etampes flight of the French Air Force under the command of Lieutenant Fleurquin, and a flight of the British Royal Air Force under the command of Wing-Commander C. W. Hill. Graf von Hagenburg, Herr Gerd Achgelis, and Fraulein Liesel Bach gave demonstrations of aerobatics and Flugkapitan Hanna Reitsch demonstrated a sailplane.

Another milestone in industry was reached on July 12th of this year when the 13-millionth Chevrolet rolled off the Assembly line in the Flint plant of the Chevrolet Division of General Motors Corporation.

In spite of interrupted production, the 13,000,000 units built to date.

Production of No. 13 million was marked by no ceremonies at the factory, but Mr. E. Coyle, General Manager of the Division, issued a brief statement from his Detroit office officially announcing the event, which was also the occasion for an informal luncheon.

When the present management, headed by Mr. Coyle, took over the reins in October, 1933, the company had built 9,000,000 cars and trucks. The 10-millionth was produced November 20, 1934, the 11-millionth December 4, 1935, and the 12-millionth August 5, 1936. Records show that it took 12 years for the company to build its first million units, while the remaining 12 million have been produced in a period of only 14 years. Mr. Coyle has been a member of the Chevrolet organization throughout the production of all but 120,000 of the 13,000,000 units built to date.

WHAT IS AIR-MINDEDNESS?

The state of mind existing among those wise people who are conscious of the Air who have awakened to the possibilities of Air Travel whose curiosity has impelled them to try it whose experience has taught them

NEVER to travel any other way The numbers of the Air-minded are doubled with each succeeding year

they include men, women and children of every nationality of every walk in life who with decided judgment have determined

ALWAYS to travel by Air Like a new religion or a river in flood it spreads in an ever-stronger, never-retreating wave

thousands are swept off their feet each day up, up into the rare, clear air above

They are the happy ones who have freed themselves from the limitations of time and of physical geography no longer earthbound, the Air-minded

traversing joyously the avenues of the Sky (With acknowledgments to K.L.M.)

tion, Chevrolet's 13th millionth car was produced in a period of just two days more than 11 months, the second-shortest million-unit period in the company's history. It is stated that the demand for the 1937 models has exceeded anything heretofore known and that, but for the frequent interruptions of output since January 1, production and workers' wages would have shattered all previous records, and the present milestone would have been reached from 90 to 90 days earlier.

Records show that it took 12 years for the company to build its first million units, while the remaining 12 million have been produced in a period of only 14 years. Mr. Coyle has been a member of the Chevrolet organization throughout the production of all but 120,000 of the 13,000,000 units built to date.

Production of No. 13 million was marked by no ceremonies at the factory, but Mr. E. Coyle, General Manager of the Division, issued a brief statement from his Detroit office officially announcing the event, which was also the occasion for an informal luncheon.

When the present management, headed by Mr. Coyle, took over the reins in October, 1933, the company had built 9,000,000 cars and trucks. The 10-millionth was produced November 20, 1934, the 11-millionth December 4, 1935, and the 12-millionth August 5, 1936. Records show that it took 12 years for the company to build its first million units, while the remaining 12 million have been produced in a period of only 14 years. Mr. Coyle has been a member of the Chevrolet organization throughout the production of all but 120,000 of the 13,000,000 units built to date.

New York Cotton Market Follows Bombay's Weakness

OPERATORS FEAR ADVERSE DEVELOPMENTS IN INTERNATIONAL POLITICAL AND ECONOMIC SITUATION

Long Liquidation And Hedge Selling

BOMBAY, Sept. 30.

Bombay's weakness was partly blamed for a drop on the New York Cotton Exchange on Wednesday with considerable Far Eastern selling of distant positions, presumably undoing straddles.

The weakness of outside markets created fears among cotton operators of some impending adverse developments in the International political and economic situation.

The New York cotton futures market opened today on a lower Liverpool cotton futures market, following a decline in the local market, and a decline in the New York market.

Weather favoured cotton picking generally with rapid advance everywhere. In Texas ginning is nearly completed in the South, and is progressing rapidly in the North. Oklahoma is advancing well. In the Central States the greater part of the crop is open and picking is progressing rapidly. In the Eastern Belt picking has made splendid progress and is nearing completion in the South.

WEEKLY WEATHER REPORT

Weather favoured cotton picking generally with rapid advance everywhere. In Texas ginning is nearly completed in the South, and is progressing rapidly in the North. Oklahoma is advancing well. In the Central States the greater part of the crop is open and picking is progressing rapidly. In the Eastern Belt picking has made splendid progress and is nearing completion in the South.

NEW YORK MARKET

The market opened at about the highest level of the day at a decline of 6 points with December 8.27. There was steady selling and prices declined to 8.20 which was the lowest level for the day. The market closed at a net decline of 9 to 16 points. Spot cotton prices were reduced 16 points at 8.50c.

NEW ORLEANS MARKET

The New Orleans cotton futures market was weak on increased selling and closed at a decline of 3 to 15 points. Spot cotton prices closed 12 points down at 8.30c per lb.

LIVERPOOL MARKET

The Liverpool cotton futures market opened at a decline of 5 points with January 4.88. There was hedging and scattered realising in sympathy with poor overseas advices. There was October liquidation, straddle selling with hedging which met trade calling. The market closed at a decline of 8 to 9 points. Middling American Spot cotton prices closed 9 points down at 4.96d per lb.

EGYPTIAN COTTON

Egyptian cotton futures market was easy and Sakels closed at a loss of 9 points. Uppers futures also declined 6 to 10 points.

ALEXANDRIA MARKET

The Alexandria cotton futures market was easy. Sakels futures closed 4 points up to 12 points down. Ashmouni futures declined 14 to 15 points. Uppers futures declined 14 to 15 points.

TIME TO ACCUMULATE

Messrs. E. J. Schwabach and Co. state:— Cotton Farmers Agreement necessary: Cotton prices have moved consistently lower during the past fortnight, with insignificant rallying power, thereby reflecting numerous adverse features in the situation, both domestic and foreign. With all active positions, except at almost every point decline. Mills are eventually more inclined to fix prices as the market works downward and this demand is coming in substantial volume from both domestic and foreign spinners.

LARGE HEDGE SALES

Clearing weather throughout the belt has resulted in larger hedge sales but the market is also well supplied with price-ordering orders and short covering at almost every point decline. Mills are eventually more inclined to fix prices as the market works downward and this demand is coming in substantial volume from both domestic and foreign spinners.

SPECULATION CHECKED

The political situation in Europe, etc. has contributed to undermine confidence and to discourage new outside speculative buying. Further anxiety and unsettlement was injected into the situation on Monday by the Government's week-end action in devaluing the £100,000,000 in gold. Additional declines in securities and commodities was the direct response to this inflationary gesture which was construed as indicating anxiety among the credit managers at Washington. It is clear that the credit policy is being used in an attempt to turn the course of security prices.

GRADE LOWERED BUT HIGH

The recent rainy weather over the belt has no doubt lowered the grade of the crop. It is generally believed however that the staple of this crop may be relatively high and that this should help sales of our cotton in foreign markets.

EUROPE TO USE MORE AMERICANS

The September crop estimate of the Department of Agriculture, in all probability, represents maximum figures for the season, in view of considerable deterioration conceded in the Eastern belt after the report was made up. In view of the imposing array of bearish factors, we feel that the market has stood up remarkably well. Hope of an increase in world consumption of American cotton this season, according to the N. Y. Cotton Exchange Service, are being based chiefly on the premise that foreign countries will use more American than last season, in consequence of the large supply and the relatively low loan value put on this crop by the Government.

BUYING POLICY

We believe that there is not much to be safely anticipated by way of further sharp price declines and favour a policy of gradual accumulation in the distant months for future requirements.

BOMBAY COTTON Prices Close Weak

Bombay, Sept. 30. Following a decline of 16 points in New York cotton futures, the local market was expected to open at Rs. 170/8 for Broach A/M delivery.

It was a curious coincidence that yesterday's weakness in the local market has a salutary effect on New York market. The supply position in U. S. A. is becoming burdensome and operators there seem to have no courage to buy cotton. Prices move in accordance with Indian and outside buying.

In view of better demand for ready cotton in the Suez market the local forward market opened very steady at Rs. 171/12 for Broach A/M delivery as the decline which was registered yesterday was overcome.

Later on there was scattered realising and prices declined to Rs. 171 but the tone of the market was steady.

Liverpool market was due to open one point down but it opened 2 points lower and with increased selling prices declined to Rs. 170/12. There was increased selling later on and prices declined. The market closed at 5 p.m. as under:

Broach A/M 159 8 1/2
Omra D/J 150 4 1/2
Bengal D/J 130 4 1/2

GANDHI JAYANTI AND COTTON MARKET

The local ready as well as forward Cotton Markets will remain entirely closed on Saturday being "Gandhi Jayanti".

GOLD AND SILVER SCATTERED SELLING

Bombay, Sept. 30. Yesterday London gold prices improved half a penny to £7-0-7. London Paris Exchange rate closed 4 points up at 144.62. Dollar sterling cross rate closed 4.9475 at London and 4.95 at New York.

London silver prices were unchanged with Spot 18 7/8d. India sold and speculators bought. The market was quietly steady. Later on prices were unchanged with Indian selling and American buying.

New York silver prices were unchanged at 44 3/4 cents. Montreal market was quiet and closed at a decline of 10 points. Shanghai T T on London was quoted 1/2 13/32.

The local bullion market was quiet but steady with a scattered selling. Silver was quiet with local realising while gold was weak with increased offerings and less demand.

LINSEED & WHEAT

Bombay, Sept. 30.
London produce market was steady yesterday with an improvement of shillings 2 1/2 in Bombay linseed. Despite the rather more favourable European political outlook, all wheat markets were steady on reports of higher freights and less favourable Argentine reports. The local market was fairly steady with a moderate turnover but in view of larger supplies we think it unsafe to be long.

Tata Steel Shares Steady

MODERATE PROFESSIONAL SUPPORT

Restricted Business And Narrow Changes

BOMBAY, September 30.

The local Share Bazar opened quiet but later on, prices improved with moderate professional support in Tata Steel shares. General business was restricted and price changes were narrow.

As usual the market was under the influence of month-end evening up and there was new development to have any marked influence on the course of prices. Demand for Indian Mill cloth is well sustained despite weakness in raw cotton prices. The sharp decline in metals is likely to draw attention and there exists a real on foreign exchanges that some adverse factor in the international political or economic situation is likely to develop in the near future.

The general feeling on the local Exchange remains bullish and professional operators are anxiously awaiting outside support to raise price levels. But the steady fall in commodities is believed to have a restraining effect.

Bombay Dyeing shares opened at Rs. 1,080 and steadily improved to Rs. 1,110. Century Mill shares opened at Rs. 295 and closed at Rs. 306. Central India shares were steady at Rs. 337 while Kohinoor closed at Rs. 377. New Great shares opened at Rs. 308 and closed at Rs. 318. Simples closed at Rs. 317 and Swadeshi Mill shares opened at Rs. 307 and advanced to Rs. 317.

Associated Cement shares were quiet at Rs. 149-4. Andhra shares closed at Rs. 1,637 and Hydros were placed at Rs. 1,65-10. Tata Power shares opened at Rs. 1,447 and advanced to Rs. 1,462. Tram shares were quiet at Rs. 132-13.

Tata Steel Dfd. shares opened at Rs. 1,630 and advanced to Rs. 1,650. Ordinary shares opened at Rs. 351-8 and advanced to Rs. 351. Bombay Burma shares advanced to Rs. 765 after declining to Rs. 757.

Communal Settlement

Why Should British Statesmen Bother?

EXCLUSIVE PROBLEM OF HINDUS & MUSLIMS

Minorities Must Get Rid Of Fear-Complex, Says Syud Hossain

Several complicated—but nonetheless solvable—problems, solutions whereof were the essential condition and natural foundation of the free India to come, were discussed by Mr. Syud Hossain, reputed journalist and lecturer in history of civilization, University of Southern California, in the course of a special interview to the "United Press" at the Taj Mahal Hotel. Mr. Hossain also dealt at length with the Arab-Jew question in Palestine which he had studied first-hand.

Mr. Hossain was not one of those who feared to look at the problems as they were. Comparing India with other nations of the world, he felt that India was still in the middle-ages. The state of education was miserable, standard of living intolerable, industrial progress negligible, social advancement questionable, and the will to put India on an equal terms with the other nations of the world almost nil and all these could not be done so long as the religious hysteria was not cured.

Asked about the remedy for communal ill-will, Mr. Hossain said that it was the job of the statesman to find it out and not of the politician. He for one believed that the minority question could be satisfied and sustained attempts by leaders of the communities concerned. He reiterated in this connection what he said to an American audience in 1930 namely: "If there are difficulties or differences between Hindus and Mussalmans they would be settled by and among leaders of the two communities. That was the common and exclusive problem of the Hindus and Muslims, rather than a job for the British statesmen in England or the British policemen in India."

Communal Conferences

His attention being drawn to several abortive attempts made in the past to solve this vexed problem, Mr. Hossain declared that it was silly to abandon further attempts, particularly because there was conceivably no other method for finding a solution. He was definitely of the opinion that human psychology being what it was, after a while agreement might be reached as a result of a psychological change in the frame of mind and outlook of leaders of both communities.

He was emphasising the desirability of leaders working for and finding out a solution because he realised that masses were not educated to the standard of being able to settle things for themselves. If they were, they would not have cared for leaders, but would have addressed themselves to the task in right earnest and

discovered where exactly the shoe was pinching.

In this connection Mr. Hossain quoted two instances to discount the contention that united efforts would not bear fruits. He said that several years ago there was great tension between the Hindus and Muslims at Allahabad and Coconut Day processions, which generally coincided with each other, and the police had often claimed to have brought peace and order.

Once Mr. Hossain felt the humiliation of the position and actually participated in finding out ways for peaceful observance of both festivals without conflict or ill-will. He and others who tried succeeded beyond all expectations and he saw the wonderful sight of absolute understanding between the two communities who took out their respective processions in disciplined and orderly fashion without one interfering with the other.

He also quoted the instance of Delhi, when late Hakim Ajmal Khan and Dr. Ansari succeeded in making Hindus and Muslims forget they belonged to different faiths.

EDUCATE YOUNGER GENERATION

Mr. Hossain wanted education to be given to growing generation in a way that was absolutely free from any sort of communal references. If during childhood it was put in the mind and heart of India's growing citizens that they were brothers born in the same soil, brought up for the same purpose, he did not find any reason why they should forget the lessons.

It was the responsibility of every patriot to see that from as early an age as possible the psychology of the true Indianism was created among India's humanity. "That", said Mr. Hossain, "is my axiom." "Educate, cultivate and put the seeds of brotherhood into the heart of growing generation and it will be wonderful to see how there grow in India young men and women with mind and soul free from the thought of communalism."

At present the minorities had a fear complex. That fear com-

BIHTA DISASTER INQUIRY To Commence From October 19

SIMLA, Sept. 30. It is officially announced that the judicial enquiry into the Bihta Disaster will be held at Allahabad commencing on 19th October at 10 a.m.

It is desired by the Government of India that all parties affected by the disaster should assist in the enquiry. All such persons willing to participate will be allowed to be represented by counsel.

The Chief Justice has appointed an experienced Counsel to represent these persons and Government will pay his fees. Communications on this behalf should be made to Mr. S. K. Dar, Advocate, High Court, Allahabad, without delay.

The Government Resolution on this subject will be published in the Gazette of India to-morrow. —A. P.

plex, said Mr. Hossain, had a two-fold aspect—economic and sectarian. It was disgraceful to make the sectarian aspect a religious question because no religion preached bigotry, meanness and cheap politics.

It was true that Hindus had a colossal majority over the rest of the communities and that was why the minorities did not feel the "essence of security" for them.

Rightly or wrongly, the minorities could feel that the majority might always try to force its ideals on them. He thought it palpably absurd to suggest that the freedom of the country meant the rule of the majorities. He had always believed in the fundamentals of true democracy, i.e., "one man, one vote." He very much wished India had adult franchise because that would pave the way for true democracy and freedom.

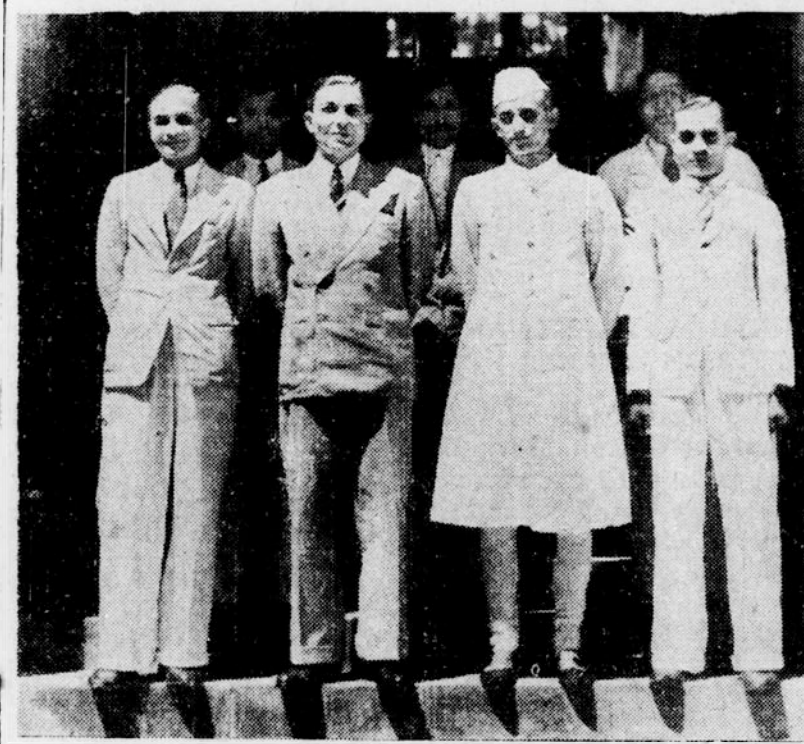

Questioned whether it was not desirable for India to have joint electorates, Mr. Hossain agreed that separate electorates system, while it might, within limits make a community strong and independent, could not tend to make it patriotic in the sense of giving it a broad national outlook. He would not be persuaded, however, to make a committing statement in this matter.

Continuing further Mr. Hossain agreed that it was in the interests of the country to flow with the tide. There were among both communities, so-called leaders who mixed up cheap politics with fear complex and there were also men who, in the name of religion, perpetrated great harm to the cause of nationalism.

He pointed out that those of those that the fear complex was founded because no democratic government could in any way interfere with the religious liberties and privileges, customs, and observance, traditional culture and conventions.

In this respect, Mr. Hossain remembered what Mahatma Gandhi said long ago that if it were in his power, he (the Mahatma) would have asked the Muslims to take what they wanted. That would create great con-

VANDE MATARAM & MAHATMA'S PHOTO

Poona Municipal School Board's Example To Presidency

POONA, Sept. 30.

A special meeting of the Poona City Municipal School Board last evening passed the following resolution that: (1) the "Vande Mataram" be sung daily in all Municipal schools, (2) Mahatma Gandhi's photo be placed in every school, (3) scholars be closed on Independence Day and (4) teachers and other employees be not banned from joining the Congress. —A. P.

Secretary For Communication Department To Be Indian

SIMLA, Sept. 30.

The Government of India, it is understood, have accepted the suggestion of Sir Mohamed Yakub that the Secretary of the New Communication Department should be an Indian and that he should also be an ex-officio member of the Railway Board.

It is further understood that this post has been given to Mr. S. N. Roy, who is now Joint Secretary of the Industries Department. —A. P.

COUNCIL PASSES PROHIBITION BILL IN MADRAS

MADRAS, Sept. 30.

By 32 votes against five the Madras Legislative Council passed the Prohibition Bill as passed by the Assembly at its night sitting. Sir K. V. Reddi voted against the measure.

The Governor and Lady Marjorie Erskine left for Ootacamund last night. —A. P.

HON. Mrs. PANDIT'S TOUR

Benares To Present Address

BENARES, Sept. 29.

It is understood that Hon. Mrs. Vijaya Luxmi Pandit, Minister for Local Self-Government, will begin her tour in the Province in the second week of October. Places of her visits include Mussorie, Dehradun, Haridwar, Bareilly and Benares. She is expected to arrive at Benares on October 17 and will leave Benares on the evening of October 19. The District Board has already passed a resolution for presentation of a welcome address to the Minister. The Benares Municipal Board, which had passed a resolution inviting her to pay a visit to Benares, will also present a welcome address.

LOCAL BODIES IN U. P.

It is understood that a large number of complaints about Municipal affairs are under the consideration of Mr. Kher, a Parliamentary Secretary to the Hon. Minister for the Local Self-Government while the other Parliamentary Secretary Mr. Chandra Bhal is engaged in the work of the amendment of the Municipalities Act. Great efforts are being made to improve the conditions of local bodies in the United Provinces.

STUDENTS' STRIKE SYMPATHISERS ARRESTED

LAHORE, Sept. 29.

It is understood that in connection with the Khalsa College strike, six prominent sympathisers including the President of the Punjab Students' Union, were arrested this evening.

Four of them were subsequently released on bail, while two are in custody. —A. P.

Nizam State People's Fears Allayed

Federal Court And Its Implications

Sir Akbar Hydari Clarifies The Position

(From Our Correspondent.)

HYDERABAD, (Dn.) Sept. 29. The fears of the Hyderabad State people who felt that if Hyderabad acceded to Federation it took the risk of having its action, legislative or otherwise, questioned in the Federal Court and taken even to the Judicial Committee of the Privy Council, was to a certain extent allayed by Sir Akbar Hydari last evening when replying to the welcome accorded to him by the Hyderabad High Court. He discussed the question of the Federal Court and its implications.

Referring to the necessity of keeping the Judiciary intact and free from outside interference, Sir Akbar assured that no such interference will ever be allowed. He said the same attitude was adopted by the Hyderabad Delegation throughout the constitutional discussions. Speaking about the Federal Court Sir Akbar observed that the provisions in the Government of India Act with regard to the Federal Court clarified that its original jurisdiction embraced all classes of cases which lay entirely outside the scope and did not impinge upon the activities of the States' High Courts.

RECOGNISE NATIONAL ALL LEFTISTS SHOULD UNITE

Appeal To Mr. B. G. Kher, Education Minister

BELGAUM, Sept. 28.

Mr. B. N. Datar, local pleader and elected fellow of the Bombay University, has sent a letter to Hon. Mr. B. G. Kher, Prime Minister and Member for Education, Government of Bombay, requesting him to give Government recognition to the degrees conferred by National Universities, e.g., Tilak Maharashtra Vidyapeeth, Poona, Gujarat Vidyapeeth, Ahmedabad Kashi Vidyapeeth, Benares and others. Most of these institutions, he states, were started in the hey day of the non-cooperation movement. Those institutions were run on sound lines and have produced many efficient national workers.

He says the Bihar Government has issued instructions to treat alike the students of National and Government Universities "in the matter of franchise to Local Bodies and Provincial Legislatures, and for appointments for service under the control of the Government." —A. P.

Ruiker's Suggestion To Labour And Socialist Leaders

NAGPUR, September 30.

Mr. R. E. Ruiker, Vice-President of the All-India Trade Union Congress, in the course of a letter addressed to Messrs. Srinath Banerjee, M. N. Roy, Soumyendranath Tagore, H. D. Rajah, Jalprakash Narain, S. A. Dange, M. R. Masani, R. A. Khedgikar, M.L.A., B. T. Ranadive, Hariharanath Sastri and other Labour and Socialist leaders suggests that all Left Wing groups should meet at some central place and arrive at an understanding, which will lead to intense mass organization and a common plan for mass action.

Mr. Ruiker says: "I feel the time has come when all Left Wing forces in India should make a supreme effort to unite. There is immense scope for organizing workers and peasants and the man-power which should be utilized for this urgent work, is being wasted over theoretical discussions."

He has also sent copies of the letter to Pandit Jawaharlal Nehru and Mr. Subhas Chandra Bose soliciting their views in the matter.

Some Bombay leaders have already approved the suggestion for holding a conference either at Allahabad or at Nagpur. —United Press.

WATERSPOUT HAVOC NEAR CALCUTTA

CALCUTTA, Sept. 29.

An unusual phenomenon was witnessed by the inhabitants of Anandpur, village about 8 miles from Calcutta, at noon to-day, when a waterspout, emerging from the neighbouring salt-lake, inundated the village, destroying thirty-five huts.

The villagers said that it was like a column of black whirling water running at a great speed and with a terrific sound resembling that of a low-flying aeroplane. Many persons were hurled high in the air, and were injured, as it passed and one has since been missing.

A relief party is operating in the area. About 500 telephone lines in and around the city were temporarily rendered unworkable. Calcutta is experiencing intermittent rains. —A. P.
